

Isn't it time to Listen to Your Heart?

Do you or someone you know suffer from hearing loss?

There is hope.

The causes of hearing loss are many. Age, exposure to noise, infections, trauma, medication, heredity, or even too much earwax all can impair your ability to understand life's sounds. The good news is that in most cases, you can overcome the debilitating effects of hearing difficulties, and re-discover the sounds and conversations you have been missing.

At The Georgetown Hearing Clinic, we are committed to your individual needs. Find out how we can help.

Musician, Industrial Noise & Swim Plugs

A SELF-CHECK for your hearing

1. Do you sometimes feel that people are mumbling or not speaking clearly?
 YES NO
2. Do you find it difficult to follow conversation in a noisy restaurant or crowded room?
 YES NO
3. Do you get accused of hearing only when you want to?
 YES NO
4. Do you have difficulty understanding speech on the telephone?
 YES NO
5. Do you hear better with one ear than the other?
 YES NO
6. Do your family and friends complain about your hearing?
 YES NO

If you have answered "yes" to several of these questions it may mean that you have a hearing problem and it strongly suggests that a hearing check is necessary.
