NOTICE OF PUBLIC INFORMATION CENTRE

Abandonment and Relocation of Operations Facility at 101 Nipissing Road Class Environmental Assessment Study

Tuesday October 19, 2004 4:00 p.m. to 6:00 p.m.
at Hugh Foster Hall (43 Brown Street)

Key Plan

The Town of Milton has initiated a Class Environmental Assessment to consider the relocation of the Town's Engineering Services - Operations Facility currently located at 101 Nipissing Road.

The study will define the current Operations Facility deficiencies and consider, evaluate and detail alternative solutions and design concepts. In addition, consideration will be given to projected growth, future service demand requirements, current Operations status and the possible advantages of a multi-purpose site for a Fire Dept. training center, transit depot, animal control and future Milton Hydro facility

The study will be conducted in compliance with Schedule 'C' of the Municipal Engineers Association "Municipal Class Environmental Assessment", (June 2000).

A key component of the study will be consultation with interested stakeholders (public and regulatory agencies). A Public Information Centre (PIC) will be held on October 19, 2004 at Hugh Foster Hall (43 Brown Street) from 4:00 p.m. to 6:00 p.m. Interested parties will be given an opportunity to review and discuss issues related to the project, including existing conditions, an assessment of alternatives, selection of the preferred alternative and environmental considerations.
