

Celebrating over seventeen years of service at Brian's Auto Repairs

By ANN KORNUA

The walls of Brian's Auto Repair are a mosaic of car service flyers, posters, faded photos of stock car racing and certificates. There are so many letters of thanks from local

charitable organizations and house league plaques that there is not enough wall space for them all. "I've lived here all my life and I have always been active in community events," Brian

said.

Started in 1987, Brian's Automotive Repair is a highly reputed automotive service centre. With his wife, Aileen, Brian has built the business through excellent customer service and superior automotive knowledge.

"I started my business December 8th, 1987 alongside Sunoco station. I rented the space here then and as time went on, I rented even more space in the same building. Today the facility is now 5,300 square feet. We service all models and makes and have certified technicians on site," Brian said.

Brian has always been interested in auto racing and drove stock cars as a hobby seven years before he got into the service business. "You learn more on the track than anything when it comes to performance," Brian said it is rewarding to have your own business grow and be successful. "It was more challenging than I expected at first. We always try to do our best and anyone can make mistakes but it is only the good ones who own up to their mistakes. That is just a part of being honest and truthful."

Brian promotes different services throughout the year. Coming up is the Mile Break Road Package. "We make sure your car is ready for any trip," Brian said. "We check the cooling system, the belts and tires and make sure the fluids are topped off, just to name a few items." Safety always comes first and he recommends quality name brands when servicing his customer's vehicle.

"After seventeen years of business in Milton we have grown to a level where we feel comfortable. I find myself very satisfied with the level and quality of business we get here at Brian's. I like the quality of patrons we get on a regular basis day in and day out and I appreciate the level of respect and satisfaction we receive. We look forward to the coming year and we'll strive to do our best for our neighbours and friends in our community."
