Coming Live to a Computer Near You

On August 1st, 2005, the new and improved www.haltonhealthcare.com will be coming live to a computer near you!

The new Web site features mouse-over menus on the home-page, which allows approximately 90 percent of the information to be accessible without ever clicking a mouse! Quick links on the very top of the page, and along the left-hand side, allow visitors to access the most popular pages as soon as they log on. This has in turn made the redesigned site more user-friendly and easier to navigate. Reorganizing the site has also made room for more information on the site, which means that we can keep patients and visitors better informed about Halton Healthcare. And finally, modernizing the site with this redesign demonstrates Halton Healthcare's commitment to remaining an active participant in the e-world.

If you have any questions or comments, please contact **Jill Hastie in the HHS Public Relations Office at 905-878-2383, ext. 6531.** On August 1st, log on and check out the new and improved www.haltonhealthcare.com!
