

Country Heritage Park Civil War Reenactment

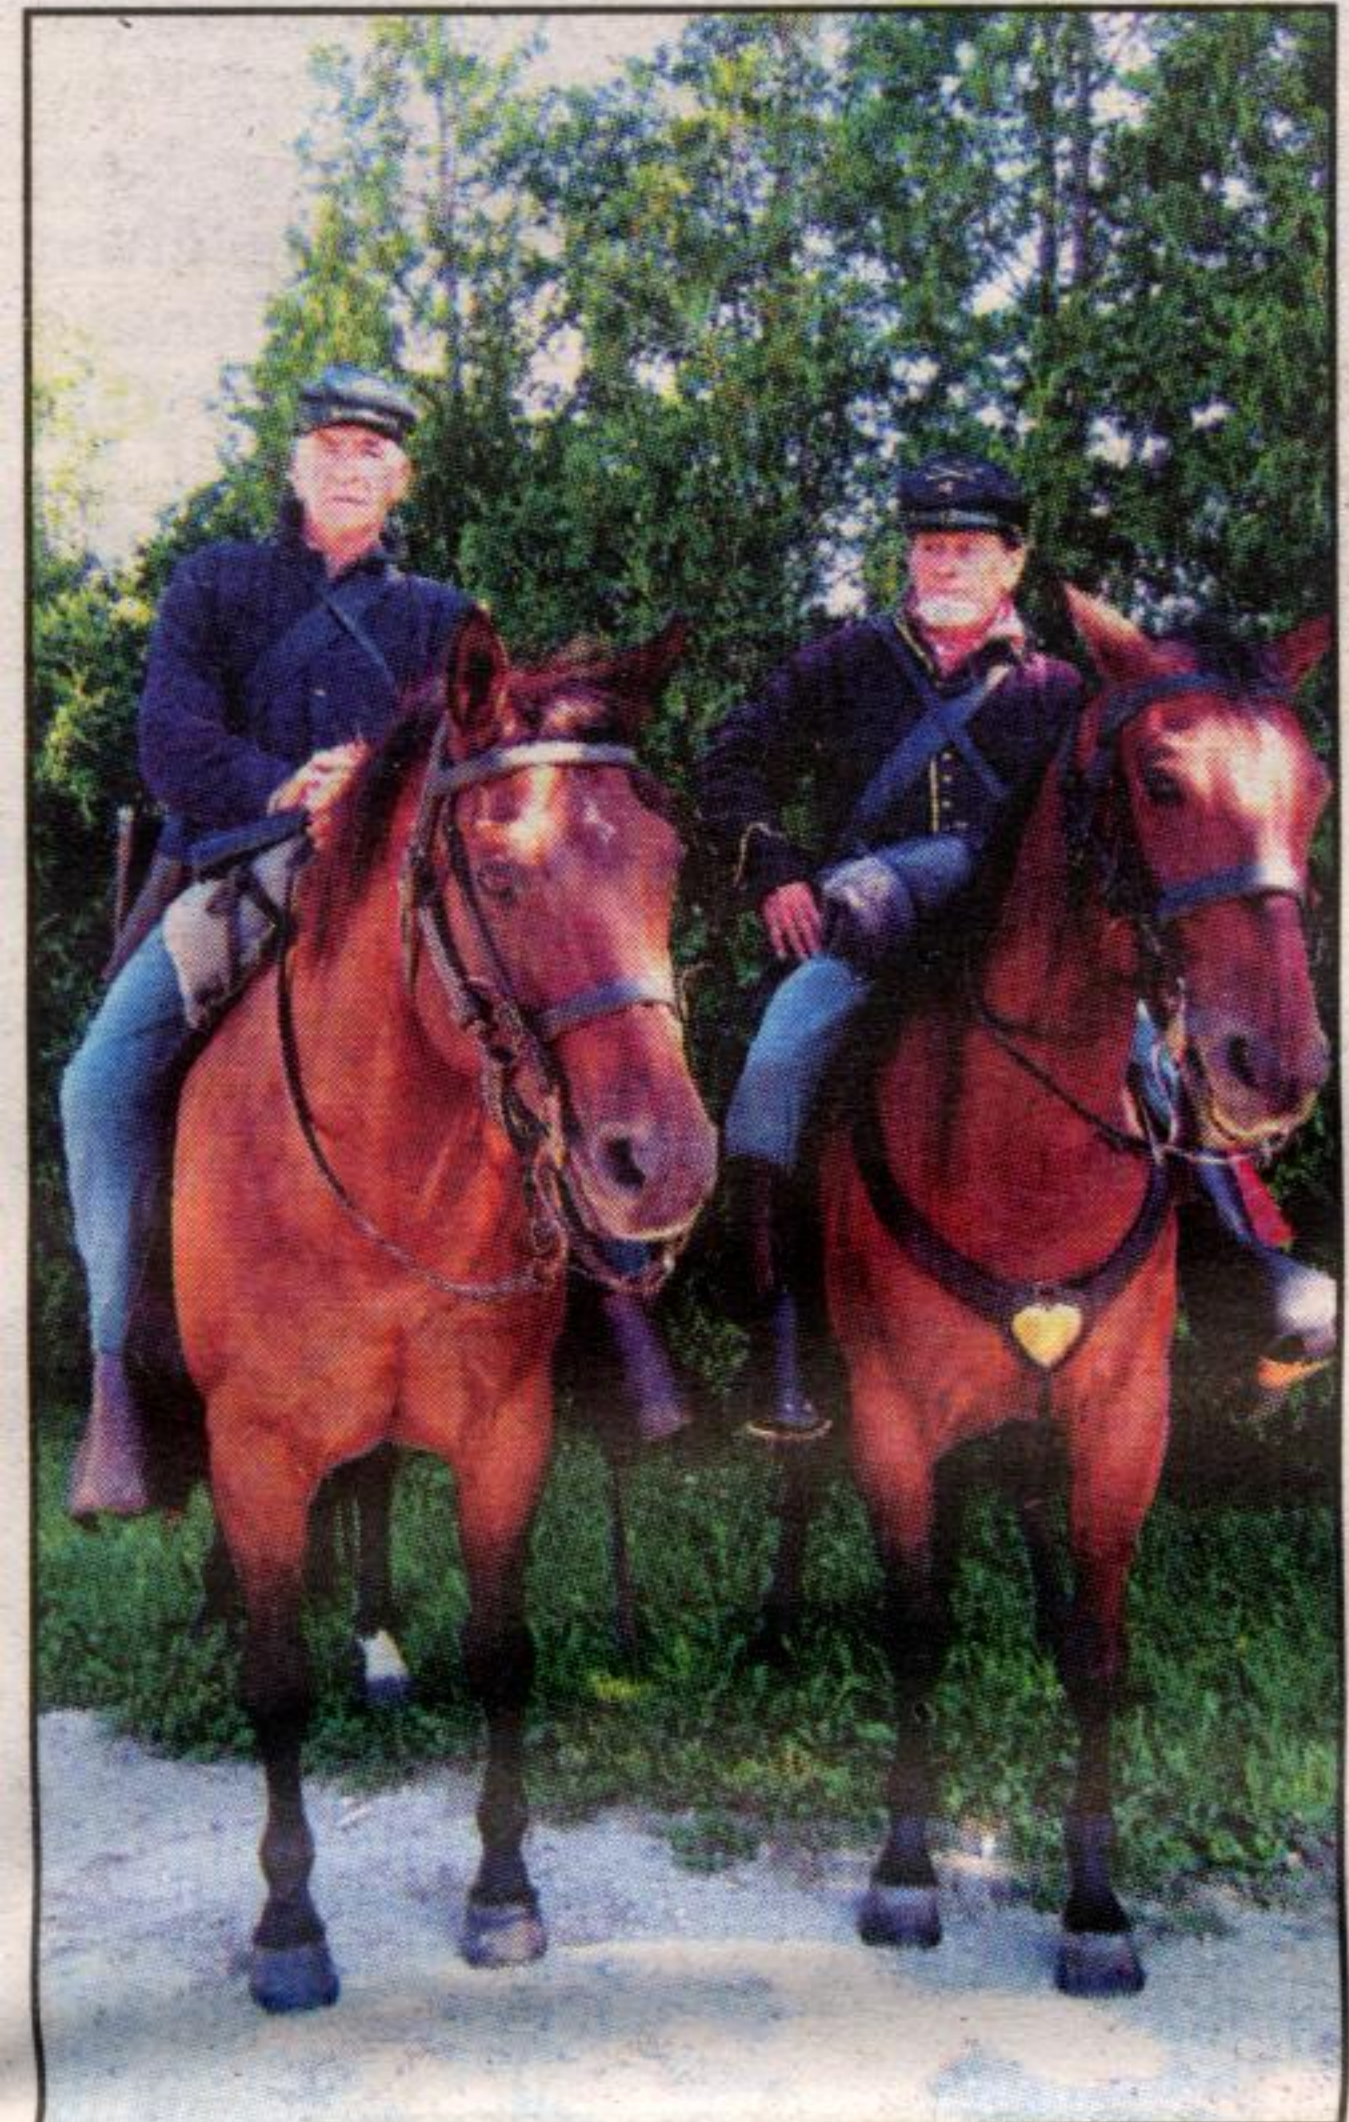

Story and photos by Ann Kornuta

Last weekend at Country Heritage Park, the American Civil War Historical Re-enactment Society performed the battle of "Brawner's Farm". The Society consists of members whose interest is in re-enacting North American historical events in the dress and style of the period showing both military and civilian life. The crowds were delighted with the booming cannon fire and staccato gun play from the Union and Confederate armies, as well as the many off battle ground segments around the park.

The battle for Brawner's Farm was a fierce one that actually took place on August 28, 1862 in Groveton, Virginia.

49th New York State Company Troopers Tom Pouspie (left) and Ray Gardener (right) take a break from scouting out the battlefield.

Dreaming of a new kitchen to gather Family & Friends in for the Holidays?

The scheduled time needed from materials order date to installation completion is approximately **8 WEEKS!**

To make those dreams a reality before the holiday entertaining season begins, make an appointment NOW with our Design Team to get started!

When Home Installs your new kitchen, receive upon completion of your project a complimentary TV!

Home Installs

Milton Home Hardware Building Centre
385 Steeles Ave., E., Milton, ON
Tel (905) 878-9222 Fax (905) 878-4049

Offer valid from August 15th to September 9th 2005.
Please present ad to qualify for free TV offer.

DAVE REDINGER

ASK THE NEIGHBOURHOOD MECHANIC

High gas prices got you down? Don't buy more octane than you need. Check your car's fuel requirements before your next fill up. Most of today's cars will run well happily on regular...

"Hi Dave
I'm confused about when to change my oil? I have heard some manufacturers recommend oil changes at 25,000 kms... that doesn't sound right to me... what gives?"

Caller on show.

Oil is not just made of oil (base stock) but is a blend of chemicals including anti-foam and anti-rust agents. The base stock never wears out; the oil becomes contaminated with use and the additives are used up. I have always recommended 8,000 kms or four months as a guideline. Oil not only lubricates the engine, it cleans and cools. Oil changes are the best thing you can do for your car and are still affordable. Check the oil level every second fill... it's good thinking.

"Dave
I drive a 91 Cadillac Deville... the traction control light will not go on and the ABS light is ON. Is this something I should worry about?"

With the addition of Antilock Braking Systems (ABS) manufacturers have been able to use the data generated by the system to operate other features. Traction control, Yaw control, tire pressure monitoring etc. If the basic information is compromised the systems will not function. Being safety related, contact a competent shop with appropriate diagnostic equipment. Don't put this off!

Dave Redinger, a mechanic with over 40 years of experience, operates his shop "DOCTOR H HONDA SPECIALISTS in Toronto for the last 24 years. Dave can be heard every Saturday morning at 9:00 on "THE NEIGHBOURHOOD MECHANIC"
