Sweet Dreams patrons will get a little something extra when they visit on April 18 between 7 and 10 p.m. The extra will be music by the blue grooves.

They play a combination of acoustic blues and rhythm and blues as well as original tunes by the group's lead vocalist and guitar player George Grosman.

Ken Clark plays bass and sings back up. The duo has been together about 10 years and does a lot of mid-week,

**LEAD SINGER:** George Grosman is the guitarist and lead vocalist with blue grooves. The duo plays at Sweet Dreams on April 18.

work in smaller, more intimate venues suitable to their softer sound, Grosman says.

European born and educated, Grosman studied classical guitar before arriving in Canada. He is based in Toronto where he teaches guitar and music theory as well as performing.

"I've played blues on three continents," he says with an infectious grin.

The group is just completing their first CD and plan to take it to Europe with them later this year. Information on their show is available at 853-4770.

**LEARNING ANCIENT SECRETS**, members of the Acton Seniors' Centre take lessons in the ancient art of Tai Chi from George Lee at the centre. Lessons are Tuesday mornings at 9:30 a.m. Following Tai Chi, is line dancing lessons at 11 a.m. on Tuesdays.

## Season for grass fires

There were no injuries and no damage following a grass fire at a Fourth Line Nassagewya house at 10:48 Monday morning. A homeowner was burning rubbish in a barrel when grass surrounding the barrel caught fire and quickly spread.

A grass fire, started by a

man burning rubbish at a farm on Highway 7, north of Silvercreek, spread and burned 30 acres before firefighters from Acton and Georgetown could extinguish it just after 6 p.m. on Monday. There were no injuries and no damage reported.

### Kitchen fire

Acton firefighters were called to a Churchill Road South apartment just after midnight on Tuesday. When they arrived, the small fire in a pot on the stove was already out. There were no injuries and no damage.

**BRYAN & DAN**

**QUESTION:** With the warm weather we had last week, I turned my air conditioning on for the first time this year. I noticed a musty smell coming from the vents. What can I do to get rid of this smell?

**ANSWER:** This musty, mildew type odour is caused by fungi-growth on the a/c evaporator. Currently the to get rid of this smell, you need to eliminate the odour seasonally. There is no long-term repair.

Fortunately, for the do-it-yourselfer there is a product available to combat the smell. Ultra-Shield Automotive Odour Eliminator by Pro-Shield is made in Mississauga and available at most automotive parts retailers.

To apply the product, it needs to be sprayed into the fresh air intake, which is usually found under the cowl at the base of the windshield. Prior to spraying, the temperature selector should be at full cold, the fan on high and the blend door selector on vent.

If you are not a do-it-yourselfer, you can take your vehicle to an automotive dealer and have the system sprayed with an industrial strength fungicide and deodorizer, which will encapsulate the mildew.

## Gibbons Painting, Decorating

Hello, my name is Rory Gibbons. I own Gibbons Painting and Decorating. I have been serving Halton Hills and surrounding areas with 10 years experience. I started painting 10 years ago in Toronto, but after starting a family we decided to

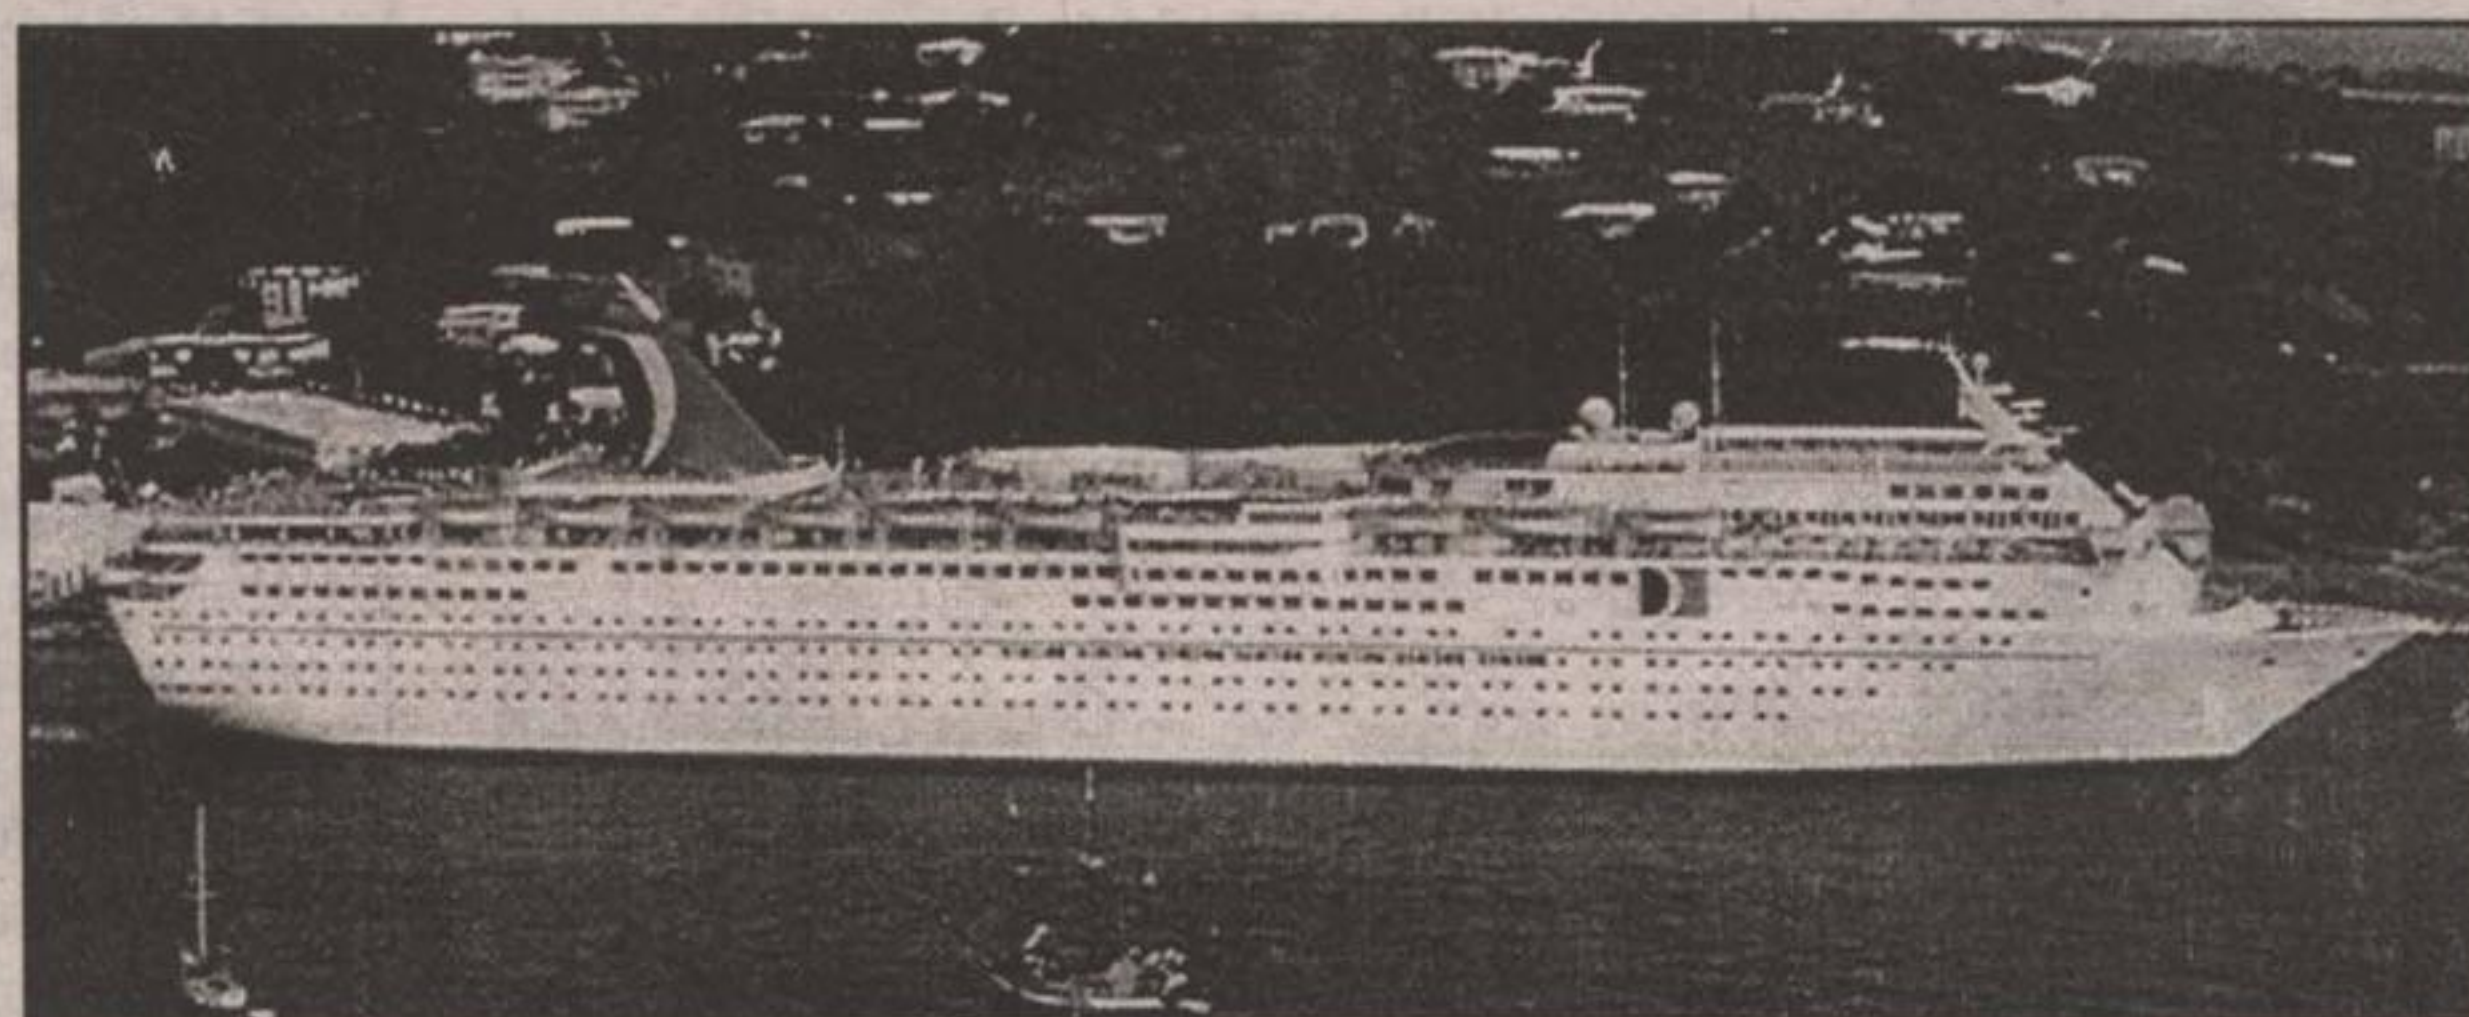

come to a community-based town. We chose Acton. I have found Acton and area to be a friendly and warm environment to work in. I take great pride in my craft and customer satisfaction is guaranteed. I do interior and exterior in both oil and latex and also do staining and deck sealing. I offer competitive rates and have references available upon request. I look forward to serving you.
