## Does one inch make a difference?

**QUESTION:** I have a 1997 Ford Expedition with 17 inch all-terrain tires. I have four 16 inch summer radials in the garage. Would the one inch difference in the tires hurt anything? This vehicle was also available with 16 inch tires.

**ANSWER:** Many things would be affected by changing tire size, such as:

1. Speedometer calibration. Your speedometer would read too fast.
2. Transmission shift point would feel strange.
3. Fuel economy would be affected.

All of this could be corrected by changing the driven gear on the vehicle speed sensor in the transmission.

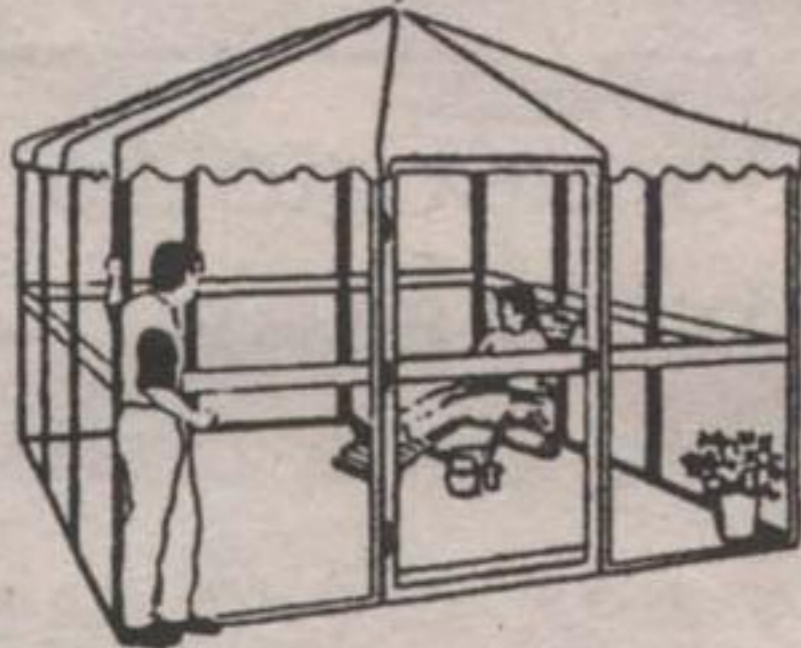

The real issue here is cost. Although the speedo gear is approximately \$12 (plus labor), 16 inch rims list for \$442 EACH. It would be much more economical to buy four 17 inch summer tires than to buy four 16 inch rims and have to change your speedo gears spring and fall. Sell the 16 inch tires and put the money towards new 17 inch tires.

Eleven ladies met at Royal Café for a delicious dinner at 6:45 p.m. the one time they are always on time. We cannot thank the folks at the Café enough; they treated us like queens. The food is out of this world and we always have enough enough food left over to take home for next day's lunch. To the folks at the Royal we say a double thank you.

Our bazaar lady Ernestine had a reply back from the church reusing it for our November bazaar. Costs have certainly gone up and we will have to discuss this further before we answer. But we thank them for their reply.

A thank you note was received from Don Ryder for the message sent on the death of his sister Marguerite.

Our next meeting is PICNIC TIME at the home of Regent Helen, the time 6 p.m. Come on out ladies and enjoy the last meeting until September and add a few more calories to your waist line. The date to remember is June 2<sup>nd</sup> at 6 p.m.

### LEGION NEWS BRANCH No. 197

By MIKE MANUEL

This past week our branch held its annual elections and the results are as follows:

- President — Gary Munday
- Past President — Carl Fisker
- 1<sup>st</sup> Vice President — George O'Donnell
- 2<sup>nd</sup> Vice President — Frank Spielvogel
- Secretary — Joyce Buchannon
- Treasurer — Gord McCutcheon
- Committee — George Forest, Christine Rogers, Junior Rowsell, Jim Davies, Mike Manuel.

A special thanks to departing immediate Past President Comrade Frank Koen for a job well done and greatly appreciated. To comrades David Capperrauld, Harold Badham and Denny Wright who acted as election scrutinizers a special thanks. To our Ladies Auxiliary who put on one of their patended meals prior to the election a heart felt thank you. And finally to the 120 members who cam out to partake in the election process — Thank you.

**READERS' HAVEN:** The Olde Book House employee, Acton's Susan Lindsay checks out the wide selection of books at the newly opened book store on Eastern Avenue, across from the olde Hide House.

by the humane society, but much rather countless times a day at the hands of small children as well as those who should know better. Personally speaking, I can recall on many occasions intervening and correcting my own children when our family cat Whitey has had his tail pulled, or has been kicked or mauled or otherwise abused by them. Others, undoubtedly, can relate instances of their own when a family cat or dog, has received undeserved rough treatment.

Such abuse and disregard for the life of smaller creatures is not, I would contend, as isolated in its application and implications as some would narrowly conclude. Much to the contrary, the respect or lack of it that we accord to God's smallest creatures inevitably carries over into our relations with, attitudes to and treatment of other people. As it is my intention to further develop this theme, next time I will focus upon respect particularly as it applies to how we are to regard and respond to each and every person as a child of God.
