Do you exist?

Buying a used car can be a mystery to both you and the manufacturer. We can't think of one vehicle line, in recent years, that hasn't been involved in at least one recall or program.

A recall is a mandatory call back of a vehicle for either a safety or emission concern. A program is normally a voluntary extension of warranty on selected components.

Many of these recalls and programs are never completed, as the manufacturer can't locate current owners of vehicles. Letters are sent to the last registered address in the computer file and may never reach the owner of the vehicle at the time of recall/program.

If you have moved or bought a used vehicle, the onus is on you to keep the manufacturer mailing file up to date. This can be done by going to a dealership and having them update the computer files. There is no charge for this service. Doing this will assure that any further mailing involving your vehicle will be sent directly to you.

It only takes a few minutes to contact the manufacturer to give them your vehicle information and your information. Doing this could save you money in car repairs down the road.

Send your automotive questions to Bryan & Dan c/o The New Tanner, 59 Willow St. N. Acton, L7J 1Z8 or fax (519) 853-0052.

Great display!

People lined the banks of Fairy Lake and crowded into Prospect Park on Canada Day to see the spectacular fireworks display by firefighters. There were plenty of "ooohs" and "aaahs" as the pyrotechnics exploded over the mirror-like waters of the lake.
