One Fairy Lake beach safe

The Halton Health Unit issued their water quality report on July 17 noting Acton's Fairy Lake's old beach was unacceptable for swimming because of the high

bacterial count. However, the report said the new beach on the other side of Prospect Park was fine for swimming.

Low water levels and the presence of water fowl con-

tribute to the high bacterial levels. Several beaches in Halton Region have been ruled unsafe for swimming. The lake at Kelso has been tested and is also acceptable.

Police warn of funny money

Police are warning merchants in particular, and the public in general, to be cautious of any \$100 bills they receive.

"They should get them checked by a bank," says Halton Regional Police Sgt. Jackie Gordon.

Two high quality phony bills with good holograms were detected in Acton in the past few days and Peel Region has also picked up a few. The bills do not have a repetitious serial numbers as is common in such situations, Gordon warns.
