**WE'D LIKE TO
MAKE THIS
PERFECTLY CLEAR**

**Watermain cleaning is currently
taking place in
Halton Hills (Acton)**

To prevent discoloured water from entering your home during cleaning, please remember:

- Do not use water or flush toilets between the times indicated on your blue letter which we will provide to you approximately 2 days prior to working on your street.
- When we are finished for the day on your street, turn on the cold water tap in your basement and let the water run until clear. This may create air in your system, and if so, go to the highest point in your home and turn the cold water tap on and let it run until the air is out of the line.

Questions? Please call 878-8113, ext. 7704, 7705 or 7706. Regional staff will be available to answer your questions.

Halton Region Planning and Public Works

Vandals cause grief

Dear Editor,

Last Monday night my sister's new car had its back window smashed. It was in the driveway of my parents' home, where you would think it was safe. My sister bought the car six weeks ago after having a car accident and totalling her then favourite car two weeks previously. We are lucky to still have her thanks to her air bags.

I have written to you in the hopes that the people responsible for this disgusting act will see this letter and come to understand what it was like for my sister to see her car as she was leaving for work Tuesday morning. She came out the front door to see the glass on the new leather

seats and the felt of the back window ripped, glass all over the driveway and the knowledge that her new car wasn't quite so new any more.

I hope that your actions accomplished something other than sheer stupidity.

Yes, her insurance will go up more thanks to you and eventually so will yours as the insurance companies have to put up their rates for stupid actions that people do to other people's cars.

So you really didn't just do it to her. You did it to yourselves and that at least makes me feel better and that you will get yours eventually.

Thanks very much for printing this letter.

M. Prete

Dumping in mains could harm lake

Dear Editor:

I read with concern the article in The Tanner last week regarding the Region going to flush out the watermains in Acton and Georgetown. I read further that they are going to use a foam cylinder and dump the effluent in the storm sewers.

A number of the storm sewers in Acton dump into Fairy Lake. I am deeply concerned that, with the lack of rain this year, what it will do to the quality of the water in Fairy Lake?

Part of the water supply of Acton comes from under Fairy Lake. If I remember correctly, the government made the water works run their pumps at full capacity for a certain number of days, before they gave their permission to put it into service, so they could see how much the lake went down. So I would assume some water in the lake seeps into the deep down water supply.

I would also like to know if the region still uses aluminium-silicate in the water treatment

LETTERS

Lack of support may force Golden Age Club to close

To the Editor:

Another closing? Yes folks, it looks as if our Golden Age Club will have to close and become another Acton memory.

Due to lack of interest and support we will be unable to continue. Remember, since 1966 we have helped support the United Seniors of Ontario, better known as the USCO. It is our link with the government on seniors affairs. Do we in Acton not care about the health and

welfare of our grandchildren? The USCO cannot exist to plan and work for them if all the small clubs like ours close. We have enjoyed the benefits the USCO has won for us through the dedication of our past generation.

Our club as formed in 1964 as a social club where fellowship can be enjoyed. We are proud to have supported the USCO since 1966. Many of us enjoy Meals on Wheels, free medication, hearing aid assistance, etc., all fought for by the USCO. Discussion time will be held on Tuesday, May 4 at Luxton Hall at 2 o'clock during our general meeting. That's when we'll look for suggestions if we can continue. Everyone welcome. Please come and join us.

Are we proud? Yes. May 19 we will celebrate our 35th anniversary with a Pot Luck at 6 o'clock. Business starts at 7, followed by a great program. For information call Christene at 853-1278.

Christene Robertson

as stated in The Acton Free Press many years ago when the park water supply first went on the line, to sequester some minerals out of the water?

I notice the government is having second thoughts, as aluminium is thought to have something to do with Alzheimer's Disease.

I enjoy The Tanner very much. Keep up the good work.

Yours sincerely,
Neil Miller,

Fishing, election calls this week

The trout fishing season opened on Saturday, May 1 and anglers were out in droves trying their luck on local streams. Not many specimens of piscatorial splendour were reported because the trout are just beginning to eat bugs which hatched as a result of the warm weather.

Wednesday at noon, May 5, Premier Mike Harris called a provincial election for June 3rd. Like the fishermen, he is angling to get enough votes to return his Progressive Conservative party to office for another term. The announcement had been expected for weeks, so the general impression is hohum! What's new!

Despite the attitude you can bet there'll be lots of political hay being tossed around over the next few weeks. The New Tanner will review the candidates next week.

"The Home of the Week"

YOUR BUILDING EXPERTS

STYLISH HOME DESIGNED FOR LOT WITH REAR LANE ACCESS

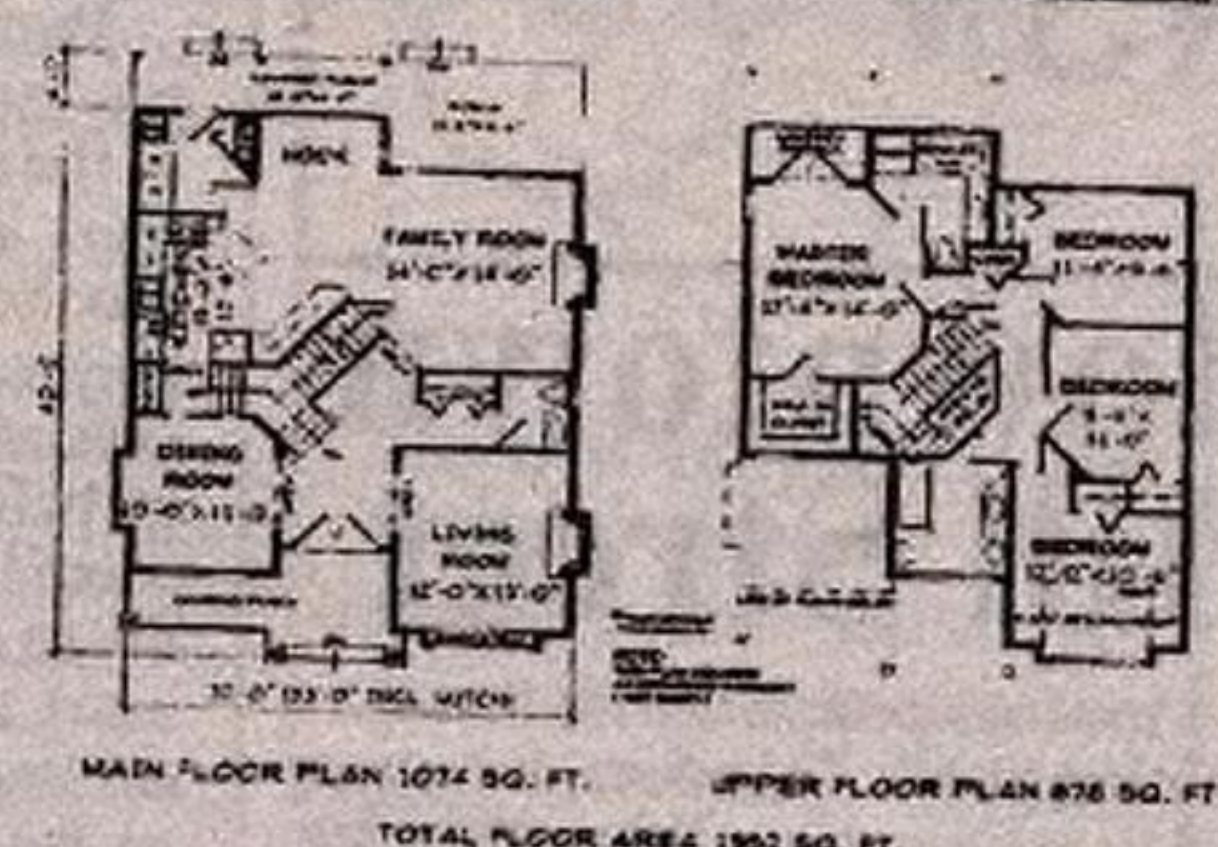

The most prominent feature of a narrow lot design is usually the garage which takes up more than half of the front facade. This home designed for a lot which can accommodate a detached rear garage, has an attractive, unfettered, street appearance.

Enter through double doors into a spacious foyer. Archways lead into a formal living room on the right and a private dining room on the left. The kitchen boasts an efficient working layout with ample cupboard and counter space. The family room offers plenty of room to arrange furnishings to your liking and features a cosy gas fireplace. A split staircase can be accessed from just outside the kitchen or from the main hall. A deluxe bedroom up front boasts a feature 9'-6" ceiling. The master bedroom is truly grand with a walk-in closet, a four piece ensuite, and a private covered sundeck.

An unfinished basement awaits your own creative touch.

Plans for U-1064 may be obtained for \$415.00 for a package of five complete sets of working prints and \$35.00 for each additional set of the same plan. All \$15.00 extra to cover the cost of postage and handling (Add 7% to plan total plus postage and handling)

This is one of our new designs. Many innovative plans are now available in our NEW catalogue: Two Storeys 2000-2500sq.ft., which is available for \$8.51 including postage and handling and GST. Please make all cheques, money orders, and Visa or Mastercard authorizations payable to The New Tanner, Plan of the week, 13659 - 108th Ave., Surrey, B.C. V3T 2K4
