Keep the kids safe

A lady came to my office upset about something she saw on Mill Street, downtown, while she was driving.

A parent had parked the car and was in the process of getting children out of the car on the driver's side. To avoid hitting anyone the lady had to brake hard.

This incident could have been a tragedy had the driver just happened to be checking her mirror or something had distracted her attention.

Several times I have seen the same thing and asked the parent to please take the children out of the car on the passenger side. Children are very quick and as any parent knows, they will suddenly dart away.

In this case no one was hurt or probably noticed anything other than the lady driver. But, what could have happened had she not been attentive?

Also recently there have been incidents of children being left in a car in the hot sun. This can result in serious criminal charges against people who have only left the car for a few seconds but get delayed. Let's keep the children safe.
