### "The Home of the Week"

## YOUR BUILDING EXPERTS

### Heritage styling enhances compact design

Low square footage and an efficient floor plan make this design an ideal choice for those wishing to scale down. As well, a covered veranda with decorative columns, gable accents on the roof, and cedar shingle detailing combine to create the time honoured heritage look so popular in today's new subdivisions.

A guest room in the front provides lodging for the grandkids, or could be used as a hobby room. An unfinished basement could be finished to provide extra bedrooms for overnighters. An open plan for the kitchen, living and dining room offers a spacious living atmosphere. The cook in the family will appreciate and efficient kitchen layout with plenty of cupboard and counter space and a handy work island with a built-in breakfast bar. The master bedroom features a three piece ensuite, a walk-in closet, a boxed out window seat and private access to the covered deck.

Plans for BB-137 may be obtained for \$375 for a package of five complete sets of working prints and \$30 for each additional set of the same plan. Allow \$20 extra to cover the cost of postage and handling (Add 7% GST to plan total plus postage and handling)

This is one of our new designs. Many innovative plans are now available in our catalogue: Ranchers and Ranchers with Basements, which is available for \$8.51 including postage, handling and GST.
