

Illegal apartments Town's target

Continued from Page 1
satisfied tenants and neigh-

bours to report them.
Tse said not all units that

registered would become legal and some would be "grandfathered" - exempted - from the bylaw if they have proof of tenants prior to 1995. Tse said the Town has no exposure to liability if it doesn't know the unit exists.

Mayor Marilyn Serjeantson suggested the budget committee look at lowering the \$650 registration fee, but both Tse and Fire Chief Bill Cunningham agree retrofit

costs are not the issue.

"In many cases there's very limited costs involved in upgrading the units and doing the (fire) separations," Cunningham said.

After the meeting Elliott said he wasn't on any "witch hunt" but now that the second units aren't outlawed, homeowners with second units must accept the responsibility along with the opportunity to collect rent.

A HAND UP, NOT A HAND OUT: Acton's Ron Birrell, a former Scout leader who introduced Acton to the Scout-Guide food drive, will be very generous on Saturday when Acton Beaver Eric Niblock, Cub Andrew Garrett, Spark Alexandra Green and Guide Julia Niblock come to his door for donations of non-perishable food. - Frances Niblock photo

Dam rehab almost done

The \$136,000 rehabilitation and spruce up of the Fairy Lake dam should be complete within two weeks. Crews are now completing the installation of 35-metres of boardwalk decking before final site grading and fencing will be done. Warren Harris, the Town's manager of Parks and Recreation, said they hope to have about \$5,000 in contingency money to help pay for land-

scaping in the spring. "They discovered the existing apron wall was in sufficient shape so we didn't have to replace that, so that was good new for the contract," Harris said, adding they might require less railing than expected, and that could also mean savings.

Kitchener-based Engineered Concrete Limited repaired and replaced the existing dam's crumbling concrete structure and sluice gate system. A chain link fence along Mill Street will be removed there will be a railing for safety which will allow people access to the edge of the lake. The Fairy Lake dam was built around 1830 to provide power for a sawmill, then a flour mill and finally the Beardmore Tannery. Canada Packers deeded the 88-acre lake to the Town in 1990.

"The Home of the Week" YOUR BUILDING EXPERTS

Best selling plans of the decade - 1996

This installment in the Best Sellers series is a home designed specifically for a cul de sac lot. The irregular wedge shape calls for a more specific design that is narrow at the front and steps out gradually to the rear of the property. This particular cul de sac design offers many of the most asked for features of the 90's.

The exterior boasts the popular Modern California Stucco look with a grand style raised entrance, feature windows with muntin bars, and stucco detailing.

Twelve foot ceilings in the foyer and living room create a spacious as well as stylish atmosphere. The kitchen has an efficient working layout with plenty of cupboard space and an open counter to service the nook and family room. The den, set apart from the main traffic areas would make an ideal study or computer room.

Four is the magic number of bedrooms, and in this home, all four are a good size. In keeping with popular demand, the master bedroom features a walk-in closet and a four piece ensuite with a swirl tub.

Plans for U-937 may be obtained for \$485 for a package of five complete sets of working prints and \$40 for each additional set of the same plan. Allow \$20 extra to cover the cost of postage and handling. (Add 7% GST to plan total plus postage and handling)

Many innovative plans are now available in our catalogue: Two Storeys 2000-2500 sq ft., which is available for \$8.51 including postage, handling and GST. Please make all cheques, money orders, and Visa or Mastercard authorizations payable to The New Tanner Plan of the Week, 13659 - 108th Ave., Surrey, B.C. V3T 2K4.
