# Halton's first flu case confirmed

The Halton Region Health Department has received laboratory results confirming the Region's first case of influenza A for this flu season in a Milton child.

"What we're experiencing here in Halton is similar to what is happening across the Greater Toronto Area," said Mary Anne Carson, manager of the Health Department's Communicable Diseases program. "Many areas within the GTA are now starting to receive reports of influenza type A."

There are many things that you can do to avoid getting

the flu. The key is to avoid the spread of germs. Staying home when you are feeling ill, and encouraging family members and co-workers to stay home when ill, can greatly reduce the spread of illnesses. Proper and thorough hand washing is very important throughout the day,

and each time after using the washroom. Using tissues to cover your mouth and nose during a cough or a sneeze helps to reduce the spread of germs.

Another important way to help you and your family avoid getting the flu is to get your flu shot. Free flu shot

clinics are occurring now throughout Halton Region and are open to anyone over the age of six months. To find a clinic date and location near you, please visit [www.region.halton.on.ca/health](http://www.region.halton.on.ca/health) or call (905) 825-6000.

**CRAZY CUTTING:** Yourway Auto Repair owner Jason Ash, along with Mayor-elect Rick Bonnette opened his new facilities on Main Street, North this past Saturday in an unusual way with a 'ribbon cutting' of an exhaust pipe. Joining them were Colin Ash, new Ward 1 councillor Jon Hurst and Mike O'Leary, employees John Tyscoe and Charlie Payne. -Angela Tyler photo
