

Your Case Mod HQ

Computer Case Modification is the hottest thing to do to your PC. Like muscle cars, people are having their computer equipment painted, backlit, and modified with all manner of glowing and pulsing lights. Come into the shop to see our ever-growing Catalogue of Mod Gear and our new see-through demo machine!

Anodized Thumb Screws
Coloured Aluminium tool-less screws — Practical and cool to look at. No more breaking out the screwdriver to show off your computer's insides.

A Case is a Case . . . or IS it?
Hearing "Look at this beige box: Its got the latest stuff inside!" isn't the same as walking past the see-through side of a high-performance computer's case.

Cold Cathode Neon Tubes
The first step most beginning modders make is to purchase a case with a transparent side. Neon tubes make the cool parts inside glow!

Glowing EL Tape & Wire
Come in and see it!

Grill O' My Dreams
Fan Grill designs are unlimited: zodiac signs, game logos, dragons, biohazard, custom logos, etc. These grills look way cool with a glowing fan behind them.

Come Party With Us!

We're hosting another LAN Party on Saturday, January the 10th. Bring your computer and plug into our network for some Fraggin' Fun!
