We at Georgetown Chrysler Jeep recognize that at this time of year the focus of most consumers shifts to much smaller ticket items than cars, trucks & jeeps. However, just as some shoppers choose to wait for Boxing Day Sales to capitalize on perceived saving, we'll all agree: timing is the key. Folks, most of us still live cheque to cheque. For commissioned automotive salespeople those cheques are slowing down at the worst possible time!

Sooooo... if you're even close to being in the market for a new vehicle you will never experience a salesperson beating harder on a sales manager to get a deal done just before Christmas. Incentives are great and the staff is eager.

Come See.
