Mae Brander introduced our guest speaker, Bert Andrews from Andrews Scenic Acres.

The Andrews family has

received the Ross Segworth Award for Farm Family of the Year for Halton in 1994.

Bert showed slides and gave an informative commentary on his farm's activities. Many varieties of berries, sweet corn and pumpkins are produced. Eleanor Hyatt presented him with an envelope of money with many thanks.

NEW LAVEDENT DENTURE CLEANSER
Cleaning with "LAVEDENT"
As LAVEDENT concentrate is added to water, special agents within the cleanser automatically adjust water hardness and soften the water being used. As soon as enough concentrate has been added (1 to 2 capfuls per 8 ozs. of water), the solution is active. As the denture is immersed, the solution immediately begins to dissolve plaque (tartar), and remove debris and odour. Other special agents allow LAVEDENT to penetrate and clean even the smallest cracks and crevices. While LAVEDENT works within the ph range necessary to remove plaque, it is not a strong oxidant or bleach and, therefore, can safely be used on any dentures with soft linings or metal attachments.
LAVEDENT has also many distinct advantages over other denture cleansers. It's regular use make sense because, you will always be assured of having a completely clean, odour free, fresh denture.
LAVEDENT is not available in stores, but is available at our office.
