

ACTON FOR BUSINESS ACTON

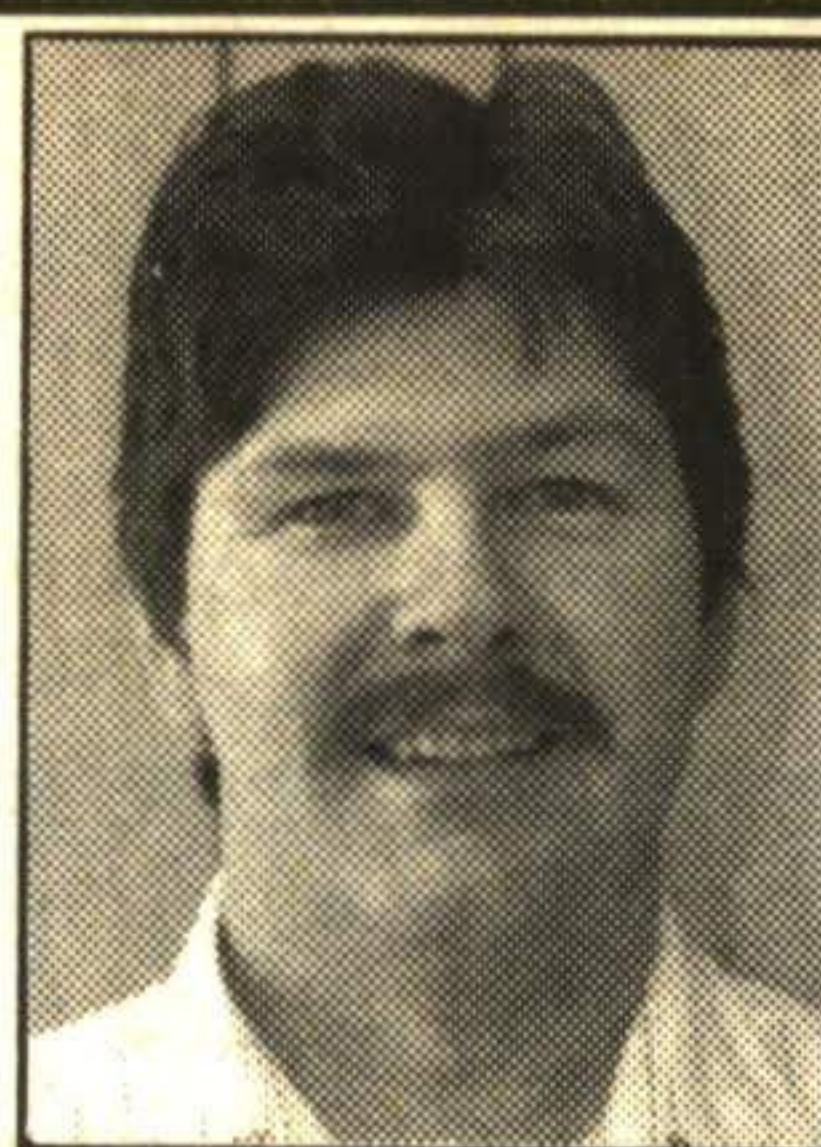

David Turner, owner of the family-owned Acton Precast Concrete started his career at the early age of 18. Now, 14 years later, the company has successfully expanded and is constantly searching for, and developing new products.

Acton Precast Concrete has been providing quality products and fast friendly service since 1963 when it was started by

Norman Turner, David's father. Later the company was to be taken over by Joanne Turner, David's, mother and is now operated by David.

The company not only offers concrete products such as septic tanks, well tiles, steps and paving stones, but also handles a variety of other building products including PVC sewer and drainage pipe, plastic and

steel culverts as well as bagged cement and pre-mixed products. In fact, today, Acton Precast

DAVID TURNER

Concrete sells more than 100 different concrete and related products.

While their delivery trucks service an area within a 30-mile radius of Acton, customers, including the general public, can also pick up from the yard which is open six days a week including Saturday mornings.

Business is largely seasonal, however the winter months are

spent repairing and maintaining production and delivery equipment, as well as fabricating new moulds for use when production begins again in April.

Dave and his crew would be more than happy to help you with your upcoming residential or commercial projects.

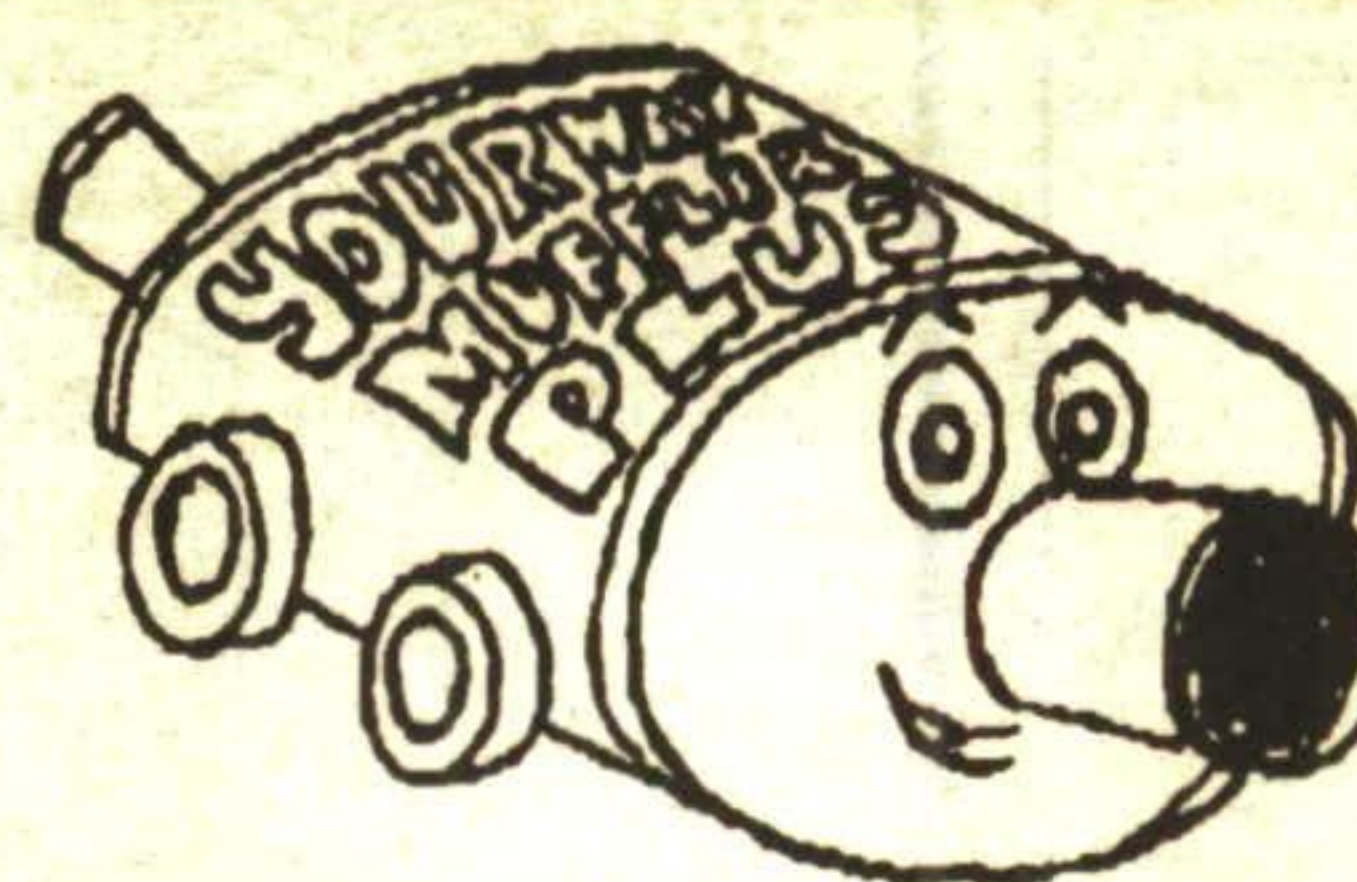

For more information call them at 853-1529.
