

Fun with science

A science project on mold growth by Laura Willis was a winner at the science fair at Stewarttown School recently. She found mold grows faster is sealed plastic than on food which is kept uncovered. JANET BAINE photo

**NEW HOPE FOR LOWER
DENTURES**

Do you have trouble with your lower dentures? Does it move from side to side, or fly out of your mouth when you cough or sneeze? Do you have a flat lower ridge? Have you always had trouble wearing it for long periods? If you have answered YES to any of these questions, you might want to look into the "MYOLOC WING SYSTEM".

The Myoloc System is still relatively new, now in use for just over 5 years. It consists of varying sizes of specially designed "Wings" that attached to your lower denture. They are small wing like loop inserts, that are placed on the inside flange of the denture, where your tongue rests. It is completely unnoticeable in the mouth, as it is covered by the tongue. The tongue actually helps hold the denture in place as it rests on the wings.

This system can be inserted in new dentures, or can also be placed in existing dentures, in the same length of time as it takes to do a simple repair. The cost of the insert is about the same as a standard relin.

Thousands of people across the country are already wearing dentures with the Myoloc Wing System. These people report greatly increased comfort, when compared to dentures without the insert. If you are interested in seeing a sample of the Myoloc Wings, or if you have any questions, don't hesitate to contact our office. We offer no charge consultations.

WE CARE ABOUT YOUR SMILE!

HALTON HILLS

5TH ANNUAL

Bike-a-thon

SUNDAY MAY 7, 1995

Come Ride Again

The 1994 Halton Hills Bike-A-Thon raised over \$13,000.00 in support of the programs and services provided by N.H.A.D.H. to 145 individuals living in our community. Contributions to the 5th annual Halton Hills Bike-A-Thon will once again help support homes for, and provide service to, children and adults with developmental handicaps in Milton and Halton Hills.

1995 SPECIAL FEATURES & ATTRACTIONS

****NEW BICYCLE** will be awarded to the top TWO individual fund raisers**
(total donations must be received at Bike-A-Thon Registration to qualify for this prize).

LOTS OF DRAW PRIZES available to all riders in attendance at draw time

LIVE ENTERTAINMENT
