Childproof your home

Each year, approximately 17,000 children aged one to four, are admitted to hospital due to injuries.

Unfortunately, many of these injuries occur in the home. Canadian Tire Corporation, Limited has recently introduced a new line of products designed to assist parents in their efforts to protect their children from household hazards such as falls, burns and scalds, choking and poisoning.

Safety 1st® products such as child safety gates, window locks, sliding door stops, and furniture guards are all designed to protect children from a fall and are now available at participating Canadian Tire Associate Stores.

Products are also now available to help reduce the risks associated with

electrical, chemical and burn-related injuries including: bath tub knobs and spout covers; bath tub thermometers; light switch extenders; corner cushions; electrical cord shorteners; outlet covers; oven/appliances locks; VCR locks; blind/curtain cord wind-ups; toilet lock straps; and a variety of cabinet locks.

"We're really pleased to be able to now offer our customers an assortment of products designed to help keep their children safe," says Canadian Tire Corporation, Limited Senior Vice-President, Marketing, Wayne Sales, adding, "This new line of products is a natural extension of our on-going commitment to children and safety."

Canadian Tire has a history of supporting childhood injury prevention.
