

Artcast creation

Sculptor André Gauthier of Ottawa is dwarfed by his 10 foot, six inch bronze statue entitled "Au Revoir" depicting a WWI soldier heading off to battle, which was commissioned to celebrate the 80th anniversary of the Valcartier military base in Quebec. The statue, cast at Artcast in Georgetown, was unveiled by Prime Minister Jean Chrétien at the entrance to the Valcartier base on April 21.

Getting on voters list

Eligible individuals whose names are not on the preliminary list of electors prepared for the 36th Ontario General Election may have their names added during the revision period running until Wednesday, June 7 — the day before election day.

As well as adding names to the list, corrections and deletions from the preliminary list prepared by enumeration may also be made during this period.

To be eligible to vote individuals must be 18 years of age on election day, a Canadian citizen at the time of voting and resident of Ontario for the six months prior to election day.

In urban area, electors must have their name on the list of electors or hold a certificate to vote. Such a certificate is provided by the Returning Officer or a revision assistant to individuals added to the list after enumeration. The certificate must be presented by the individual at his or her polling place to receive a ballot and to vote.

In rural areas, electors who are not on the list on election day, or who do not have a certificate to vote, may still vote if: they take an oath or affirm that they are eligible, and they are accompanied by an elector who is on the list for the same polling division and who is prepared to vouch for them.

Electors whose names are not on the list, or who require corrections or deletions to their name on the preliminary list, should contact the Returning Officer located in the Georgetown Indoor Mall on Guelph St.

DENTURE CLEANING TIPS:

- * Fill the sink halfway with water so your dentures won't break if you drop them.
- * Scrub dentures thoroughly, ask your denturist for a special denture brush; it's short bristles clean sides and chewing surfaces and long bristles reach the narrow spaces inside. Soap and water work fine: baking soda removes stains. Lavedent denture cleanser is an excellent cleaner, and is available at our office.
- * If you have partial dentures, clean their metal clasp carefully.
- * If you find denture brushes hard to handle, try a nail brush for a better grip.
- * Rinse dentures in clean water before returning them to your mouth.
- * Remember to keep in touch with your denturist. Your mouth changes constantly - so from time to time, your dentures will need adjusting to maintain a good, comfortable fit. While reviewing the fit, your denturist will also examine your tissues, and review your homecare routine. You do not need a referral, simply call our office for an appointment.
