

Community fair kicks off summer in Nassagaweya

Summer officially begins in Nassagaweya with the annual Community Fair at Brookville School.

The theme of this year's fair on Saturday, June 3, is Fun In The Sun. You can be sure of the 'fun', and hopefully the 'sun' will also appear. Events kick off with a 1km or 5km Fun Run at 9 a.m. The balance of the

activities get underway at the Brookville School grounds at 10 a.m. and continue until 3 p.m.

Admission is free, and activities are designed to appeal to all member of the family. The primary goal of the fair is to provide an inexpensive fun day for families and the community, featuring games and crafts, free entertainment, and a giant prize

draw.

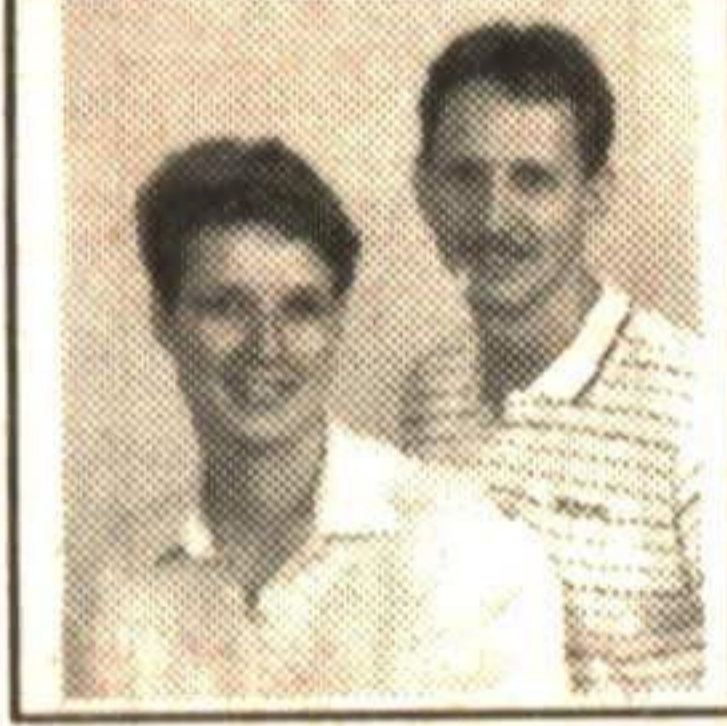

Proceeds from last year's fair purchased Science & Technology Kits for the primary grades.

Favorite children's games and activities galore will be offered in Kid's Alley from 10 a.m. to 2 p.m. The Dunk Tank will again feature favorite celebrities (bus driver, principal

etc.) New attractions include a Sports Strip for volleyball, basketball and Frisbee teams, and a Sand Castle Contest. Special activities will include pony rides, petting zoo, the Pepsi Challenge, and a Lip Sync Contest at 1 p.m. Community Displays, a Craft Table and the Food Court will be featured until 2 p.m.

The Giant Prize Table dominates the final hour of the fair, 2-3 p.m. Area merchants and companies are again asked to donate items of all kinds, shapes, and sizes. Tickets will be sold individually for a quarter, or in \$10 Coupon Books. The first 120 people purchasing these books receive an Incentive Bag with product samples.

THE WEATHER AND HOW IT AFFECTS YOUR LAWN

The temperature and weather conditions play an intricate part in the health and condition of home lawns. Even the geographical location makes a difference, e.g., Acton versus Georgetown.

The extremely cold temperatures this spring, have delayed the germination of weeds and spring green up by up to 1 1/2 weeks. Now that the temperature appears to be maintaining itself, the lawns and flowers are all starting to grow. The rain so far this year has been great for your garden and lawn. Winter damage has been very dominant this spring because of the lack of snow and the very cold temperatures. It has made it very difficult for some lawns to green up because of the dead grass. Giving your lawn a good raking will definitely help this situation.

The wind this spring has been very strong. Although it has helped to dry out your lawn from all of the rain we had, it has also made it difficult for you to apply your weed control. Weed control products may damage shrubs and flowers if they come in direct contact with the plants. So, if you are going to apply a weed control product to your lawn, be careful of the wind. Treating the lawn in the early morning or evening would be best as there is usually the least amount of wind at this time.

NEXT TIME: DON'T WORRY, IT'S NOT TOO LATE!
