- tour the greenhouse

Located east of Highway #410 at Bramalea Road and Highway #7  
(905) 458-6555

## Still spots in Halton Hills day camps

The Halton Hills Recreation Department remind parents and children that there are still spots open in its fun camps this summer.

### Theatre & Musical Theatre Camp

Three weeks of drama for children 8-14 years at Acton High School. Campers will learn how to write a script, build sets, use effective voice projection, rehearse and put on a final production in front of family and friends. Enrolment is limited so be sure to register soon to avoid disappointment!

### Junior Activity Centre

Acton High School will be the site of Junior Activity Centre for children ages 6-9. This exciting camp offers games,

swimming, crafts, music, special events, and weekly bus trips to fun places like Canada's Wonderland, Wild Water Kingdom, and KidSports!

### Nature Camp

Join-in and enjoy the fun at this environmentally-conscious camp. Learn all about nature off the shores of Fairy Lake at beautiful Prospect Park in Acton. Campers will enjoy camp crafts, hiking, swimming, orienteering, recycling and composting programs and much more. This two-week program also includes an overnight excursion to Kelso Conservation Area.

Call the Recreation and Parks' Hotline at 873-2600 ext. 275.

## THE Electrolysis CLINIC

SPECIALISTS IN PERMANENT HAIR REMOVAL  
112 Main St. S., Ste. 208  
Georgetown, Ont. L7G 3E4

### Why Choose Electrolysis?

Because electrolysis is the ONLY PERMANENT method of hair removal. This is achieved by inserting a tiny probe into the hair follicle. A combination of heat from the probe & moisture in the hair follicle severs the blood vessels from the papilla eliminating the possibility of nourishment. The hair is then removed harmlessly with a forcep.

### Is Electrolysis Safe?

Yes, it is very safe and unlike depilatories or bleaches, no harsh chemicals are used. We follow very strict sterilization procedures and only disposable needles and gloves are used.

Call for a free, no obligation consultation

ALEX TRENTON  
DENTURIST

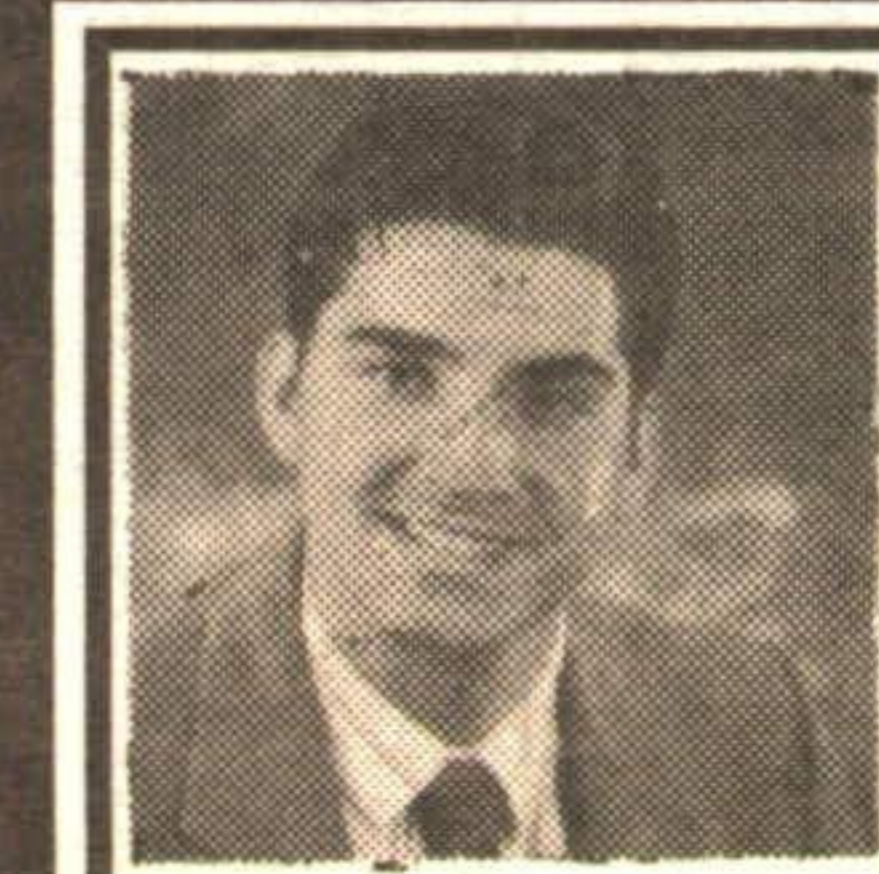

## DENTURE "SORE SPOTS"

The main reason for having sore spots is illfitting dentures. Your mouth is constantly changing and your gums are constantly shrinking. Also denture wear causes discomfort. It is always important to note that an illfitting denture does not have to be a worn out "old" denture. It is possible to have a new denture that if illfitting, but for many different reasons. It might not have been made right from the start.

**OTHER REASONS FOR HAVING SORE SPOTS**  
As you get older, your body goes through many changes. Tissue can become more sensitive to pressure which can cause irritation. Medication can give you a "dry mouth". This makes it more difficult for the denture to suction to the roof of your mouth. It also can cause rubbing which causes sore spots.

If you are having trouble with sore spots, contact our office for a free, no obligation consultation.

R.H.A.D.  
FIXING FEEDBACK

If your hearing aids whistle (also known as feedback), when you are wearing them, you can "Troubleshoot" for the following: You may not have your hearing aids placed in your ears properly. The Volume control may be set up too high. You may have a wax build-up in your ear.

Did the whistle occur when you had something near your hearing aid like a telephone or your hand?

Finally, if your hearing aids whistle for "no reason at all" then please give us a call at:
