### WORK PANTS AND SHIRTS THAT WORK AS HARD AS YOU DO.

As we open yet another Mark's Work Wearhouse, you can be sure we haven't forgotten the clothes whose reputation helped us grow. In fact, our work sets are the best they have ever been. They're constructed from a twill blend of 65% Fortrel™ polyester/35% cotton that's permanent pressed and Scotchguard™ treated for reliable soil and stain resistance. Pants are serge-seamed and cut from rugged, 8.5 oz. material, while shirts employ a lighter 6 oz. twill. A fine example of the kind of clothing you can expect to find in a store where quality isn't just job one. It's jobs two and three as well.
