

Contact sport!

The Georgetown PDS Minor Peewee Raiders are tuning up for the upcoming Tri-county Hockey League season. The local squad, playing their first year of contact hockey, dumped Streetsville 9-2 in an exhibition tilt at Alcott on Tuesday evening.

Soccer champs crowned

Elliott Custom Brokers defeated Georgetown Chrysler 2-0 in the under-9 girls final at the Georgetown Youth Soccer Day of Champions

Goals were scored by Leeanne Bruce and Elleana Hoestra. Noteworthy players included Victoria Brownlee, Erin Hesselink-Wyga and Frankie Metcalf.

In the under-11 championship game Paul Armstrong Insurance edged Accura Molding 1-0 on a goal by Stephanie Young. Noteworthy players for Armstrong included Caitlin Brown, Laura Casey and Shawn Flaxbard.

The entire Accura squad played well.

Eagles reach final four in Scarborough

The Georgetown Eagles, girls under 11 select soccer team traveled to Scarborough on September 9 and 10 for their fourth and final tournament of the season.

Under the coaching of Derek Roy, assisted by Brad Crowell, the Eagles turned in one of the best seasons Georgetown has seen from a girls select soccer team in the same time, winning the Unionville tournament on August 27 and placing fourth in Scarborough.

The first game of the tournament was against Scarborough. Melissa Hahn scored the first goal of the game with the wind against her and the sun in her eyes. Anna-Marie Yurichuk was able to help keep the ball in Scarborough's territory for the better part of the game. Stephanie Young played her midfield goal of the game. The final score of the game was 2-0 for the Eagles.

The second game saw the Eagles against East York.

Georgetown played an excellent game with everyone playing their positions well. The Eagles were the stronger team keeping the ball in East York's territory for the majority of the game. The Eagles had four near goals but just could not get the ball between East York's goal posts. The game finished scoreless.

The final game on Saturday had Georgetown facing Cobourg. One minute into the game, Stephanie Young scored the first goal, setting the pace for the rest of the game. Regan Boyle was well positioned on a goalie's ball scoring the second goal. Shawn Flaxbard kicked high and hard to score a goal from midfield. Stephanie Young ended the game with a hat trick and Regan Boyle scored another goal to help the Eagles to a 6-0 win. Lisa Butler ended the day with 3 shut outs.

Sunday morning, saw

Georgetown in the semi finals playing Erin Mills. Erin Mills scored early in the game with Michelle Hoffing scoring a goal to tie the score up. Laura Casey played an excellent defensive game attempting to keep the ball out of Georgetown's end. Lisa Butler had some very good saves. But the Eagles efforts were not enough to keep Erin Mills from scoring two more goals. The game ended 3-1 for Erin Mills.

This left the Eagles in the consolation final against Niagara Falls. The Eagles were the stronger team during the first half of the

game but could not score against Niagara Falls. Shawn Flaxbard and Jennifer Murray both played an outstanding game trying to defend Georgetown. Unfortunately, Niagara was just a little stronger winning 3-0.

Team members: Fiona Campbell, Shawn Flaxbard, Regan Boyle, Melissa Hahn, Jennifer Adams, Lisa Butler, Melissa Williams, Anna-Marie Yurichuk, Jen Murray, Michelle Hoffing, Chelsea Crowell, Laura Casey, Samantha Allen, Jacqueline Hoffing, Michelle Hoffing and Stephanie Young.

Tooth Chatter

by
ALEX TRENTON DENTURIST

LET'S TALK SCIENCE FOR TODAY'S TEETH

Over the centuries that man has made artificial teeth, many materials have been used in fabrication. These include have bone, ivory, human teeth, wood, gold, silver, porcelain, vulcanite and variety of plastics.

Some materials could only be carved to shape. Others were crude fitting casting to which strips of whale bone or springs were attached in an effort to hold them in place. The most famous set of dentures of this latter type were worn by George Washington.

VULCANITE

When Charles Goodyear invented vulcanite in the 1840's it was a great step forward in obtaining a degree of fit not before possible.

In decades past, denture wearers have had to persevere with denture bases and teeth of a very simple nature. But science's ever increasing control over the elements involved in denture construction, the art has not only become more precise and durable but has also been allowed to broaden its scope and imagination.

COMPLEXIONS AND PERSONALITIES

Through the advance of science the expanding technology of denture manufacturers is practically boundless. With stable base materials available, the tooth manufacturers have concentrated on creating porcelain and plastic teeth to match not only every complexion but every personality too. From the active and outgoing male to the soft and delicate female, every type of personality has been considered and incorporated into the individual plastic and porcelain teeth available to Canadians today. It is now possible for denture specialists to construct a finer and more uniquely personal product than ever before.

Remember, consultations are always free. You do not need a referral; simply call our office direct.

Limited Time Only

"In my 30 years of teaching Martial Arts I have seen the dramatic positive impact that Martial Arts can have on a child's development.

I believe so deeply that Martial Arts instruction develops discipline, self-esteem, self respect and character that I founded "Kick Drugs Out of Canada" to teach Martial Arts to at risk kids.

"I support "Kick Drugs Out of Canada" and so does the school listed below."

Our award winning Black Belt instructors will develop in your child deep rooted respect for parents, teachers and law and order.
