## Ladies, start your engines.

At Saturn, we couldn't make it any easier to buy a car, so we're making it easier to understand one.

Join Mary Jackson, author of *The Greaseless Guide To Car Care Confidence*, for her acclaimed "Women-at-the-Wheel" seminar. It's a free seminar that will erase the words *thing-a-ma-jig* and *watch-a-ma-call-it* from your vocabulary.

Mary will explain the inner workings of your car in plain, simple English. You'll come away with the confidence to speak to mechanics in their own terms. And you may even save a little money down the road.

You will learn:

- How to select a good repair facility
- How to recognize good value for your repair and maintenance expenses
- How to choose the right gasoline and oil for your vehicle
- Simple steps to make your car last longer and cost less
- And much, much more.

So turn that *thingy* and step on the *you-know-what*, and join us for a different kind of seminar courtesy of the people who sell a Different Kind of Car.

Please call to reserve your place for the free "Women-at-the-Wheel" seminar
