REGISTRATION FEE IS \$20.00 PER PERSON
SEATING IS LIMITED

Region must appoint to fill vacant position

Within the next 60 days Halton Hills council will have to appoint someone to fill Bill Robson's position at Halton regional council.

Robson died of a massive heart attack at the regional council meeting on October 11.

Town clerk Janet Lunn Stewart said Thursday under the Regional Municipalities Act of Ontario in this situation the area council has to appoint an eligible elector to the position. That could

be a member of local council or anyone who is eligible to be a candidate in a municipal election.

To be eligible a person has to be a Canadian citizen, 18 years of age and a resident of Halton Hills.

Lunn Stewart explained if council appoints a current member of local council to the regional position it has a choice of appointing or electing a person to fill the vacated local spot.

Stereo stolen

A stereo worth \$2,400 was stolen from a 1986 Ford Escort parked on Mary St. in Georgetown early Tuesday morning. Someone broke the driver's side window and removed a speaker box with four speakers, an amplifier, CD player, and an additional set of speakers, police said.

Acton break-in

Someone broke into an Acton business but took nothing, police said. Overnight Monday a rear door was forced open and someone went into an office and rummaged through the cabinets.

Car damaged

A 1987 Ford pickup was vandalized while it was parked on Mill St. W. in Acton overnight Sunday, police said. Someone scratched the side and dented the driver's door. The repair bill is expected to be \$500.

THE Electrolysis CLINIC

SPECIALISTS IN PERMANENT HAIR REMOVAL
112 Main St. S., Ste. 208
Georgetown, Ont. L7G 3E4

Excess hair on the face and other areas of the body is extremely common in both men & women. There appears to be three general categories of causes of excess hair;

- 1) Congenital (hereditary)
- 2) Topical (increase in blood supply)
- 3) Systemic (hormones)

The good news is this excess hair can be removed through electrolysis - the only medically recognized method of PERMANENT hair removal.
