

Bishop Walter Asbil of the Niagara Diocese was on hand to help St. George's Anglican Church's Prayer Trek.

# St. George's boldly goes on a Prayer Trek

About 100 children have enrolled in an innovative Prayer Trek program to be held at St. George's Anglican Church in Georgetown.

The program is being conducted over four Sundays from February 18 to March 10.

The program incorporates current active learning concepts to teach children about personal prayer and follows the exploratory theme of the Star Trek television series.

"The church hall is going to be transformed into the bridge of the Starship Eternity," said coordinator Merle Carlton. "We're setting up seven 'planetary' areas of the church."

The children, organized into 25 groups of four with an adult leader, will take turns visiting the planets of Faith, Hope and Love. They will begin their weekly voyage with song

and then a visit to the transformer room, where they will stand on heart-shaped transformer discs to be transported to the planets. Each planet area will be decorated differently to create a feeling of unexplored territory.

"Altering the physical setup of the church is going to create tremendous excitement for the children as they follow a mission into unknown space and seek guidance from 'Captain Companion'," Carlton continued.

Each child will be provided with an over-the-shoulder pouch which contains a personal log book to record prayer activities, situations and outcomes. They will also receive age-appropriate activity books which encourage the children to read Scripture and pray daily at home.

The program originated within the Niagara Diocese of the Anglican

Church, of which St. George's is a parish. St. George's members, Merle Carlton, Richard Clague and Brenda Sisnet, heard about the program and attended training sessions last October. Richard Clague believes that the children will benefit from learning more about spontaneous prayer.

"In the Anglican tradition, our prayer books are based upon the thoughtful use of Scripture to form our prayers and corporate worship," he said. "Prayer Trek will show children the role Scripture plays in the development of prayer and will give them a positive experience of unrehearsed prayer with others."

"We're really excited by the local response to Prayer Trek," said Brenda Sisnet. "Enrolment has already reached the maximum number of children. It's going to be fun for all of us."

**WHEN EXERCISE IS NOT ENOUGH!**

Body sculpting by liposuction is literally a dream come true. Localized accumulations of fat, which may be inherited and sometimes impossible to eliminate by exercise or dieting, can now be removed permanently by liposuction, never to plague you again.

**BEFORE** **AFTER**

The concept of liposuction is surprisingly simple. It is a technique that improves the body's contour by removing excess fat from fatty deposits located between the muscle and the skin. Fat cells that are removed by liposuction never grow back.

In women, the most frequently treated areas are the abdomen, hips, knees, calves, chin and neck.

In men, the most commonly treated areas include the love handles, abdomen, breasts, chin and neck.

Please contact the Brampton Cosmetic Surgery Clinic for an appointment. Your consultation includes video presentation, literature and assessment. We also do face lifts, nose contouring, eyelid correction, brow or forehead lift and breast surgery.
