

Norval Church hosts Evening of Music and Worship

On March 17, 7:30 p.m., Norval Presbyterian Church will be presenting an Evening of Music and Worship featuring harpist Lori Gemmell and percussionist Steven Wassmansdorf.

The combination of music for harp and percussion is unique. Familiar classics, new music, special transcriptions, and solos for both the harp and the marimba will be featured. The program will include music by Ravel, Debussy and Bach as well as new music for Celtic Harp and exotic percussion instruments.

Harpist Lori Gemmell recently completed performances as soloist with the National Arts Centre Orchestra in Ottawa. This past summer Gemmell played in the Banff Centre's new production of Alban Berg's *Wozzeck* and was invited to join members of Le Nouvelle Ensemble Moderne of Montreal on their upcoming tour of Japan.

Gemmell spent six months in 1995 as acting principal harpist of the Calgary Philharmonic Orchestra, a position she held with Orchestra London (Canada) since 1991.

Percussionist Steven Wassmansdorf is currently in his third season with the Windsor Symphony Orchestra and second season as the acting principal percussionist of the orchestra. For many years Wassmansdorf has been an extra percussionist with the Toronto Symphony Orchestra and has played with all of the major orchestras in southwestern Ontario. Twice he has performed at the Darmstadt Festival for New Music in Germany and has been in the Music Theatre Orchestra of the Banff Summer Festival.

The Halton/Peel Progressive Conservatives tried to unravel the mystery in *Tory Terror on the Hill*, March 1 at St. George's Church. Halton/Peel PC vice-president Bob Malcolmson, second from right, joined cast members (from left) David Ambrose, Christine Ford and Evan Robinson. Georgetown Globe Productions performed the murder mystery for the chapter's fundraiser.

MANIFESTATION
Manifestation is the manner in which God interacts with human affairs, a word to describe the Founders of the world's religions. Each is like a mirror that perfectly reflects the light and heat of the sun, but is not itself the sun.
