Bathtub King[®] Refinishing

Canada's No. 1 Name in Bathtub Refinishing

At Bathtub King bathrooms are our only business. Our list of satisfied customers is long and varied. We have done work not only for residential accounts, but also commercial, industrial and government. The result is unmatched experience and, most important, complete customer satisfaction is guaranteed.

Q. What Can I Do To Get The Shine Back on My Tub?

A. If you have attempted to clean the tub with normal household cleaners and the tub is still dull or dirty in appearance, there is probably nothing you can do to restore the shine. The original finish (glaze) has become worn leaving the pores exposed to absorb the dirt and chemical stains. Unfortunately the more one scrubs. A new finish or new tub is the answer.

Q. Just What is The Glaze - Is It Real Porcelain?

A. No, it's not actually porcelain, it's a synthetic, which when applied, hardens to a beautiful high gloss porcelain-like luster. The Bathtub King formula is a unique process developed specifically for bathtubs and laboratory tested to meet the highest standards of product performance and quality. Our list of satisfied customers proves that claim and guarantees your complete satisfaction.

Q. Why isn't it Cheaper To Buy A New Tub?

A. Our best answer to this most frequently asked question is to respectfully suggest that you compare one or more estimates which reflect the total cost of the installation of a new tub with our price. Make sure your estimates include all plumbing costs for labor and fixtures, as well as the cost for replacing wall and floor tile damaged in the removal of the old tub. Insist upon receiving a quality replacement tub -- not a weekend special. If your present tub is porcelain over cast iron, it is far superior in quality than the low-priced replacement tubs on the market today. We complete our work on less than one day -- and there is no mess to clean up after we leave. Therefore, in most cases, we can save you both time and money.

I sincerely hope that we have been able to answer your questions to your satisfaction. We are happy to be of service to you, so do not hesitate to call us if we may assist you in any way. If you decided to have Bathtub King refinish your bathtub or other fixtures, we normally schedule our work within a seven to ten day period. Your telephone call will start the ball rolling. We know you will be pleased with your new Bathtub King finish.

We can make your bathtub, sink, ceramic tile look new again with exclusive in-home refinishing process.

Consider these advantages:

- **LOCALLY** owned & operated
- Quick, clean, efficient service
- Durable high-gloss shine
- Colour at no extra cost
- New caulking included
- No hidden extra charges
