

# ACTON FOR BUSINESS . . . . . ACTON

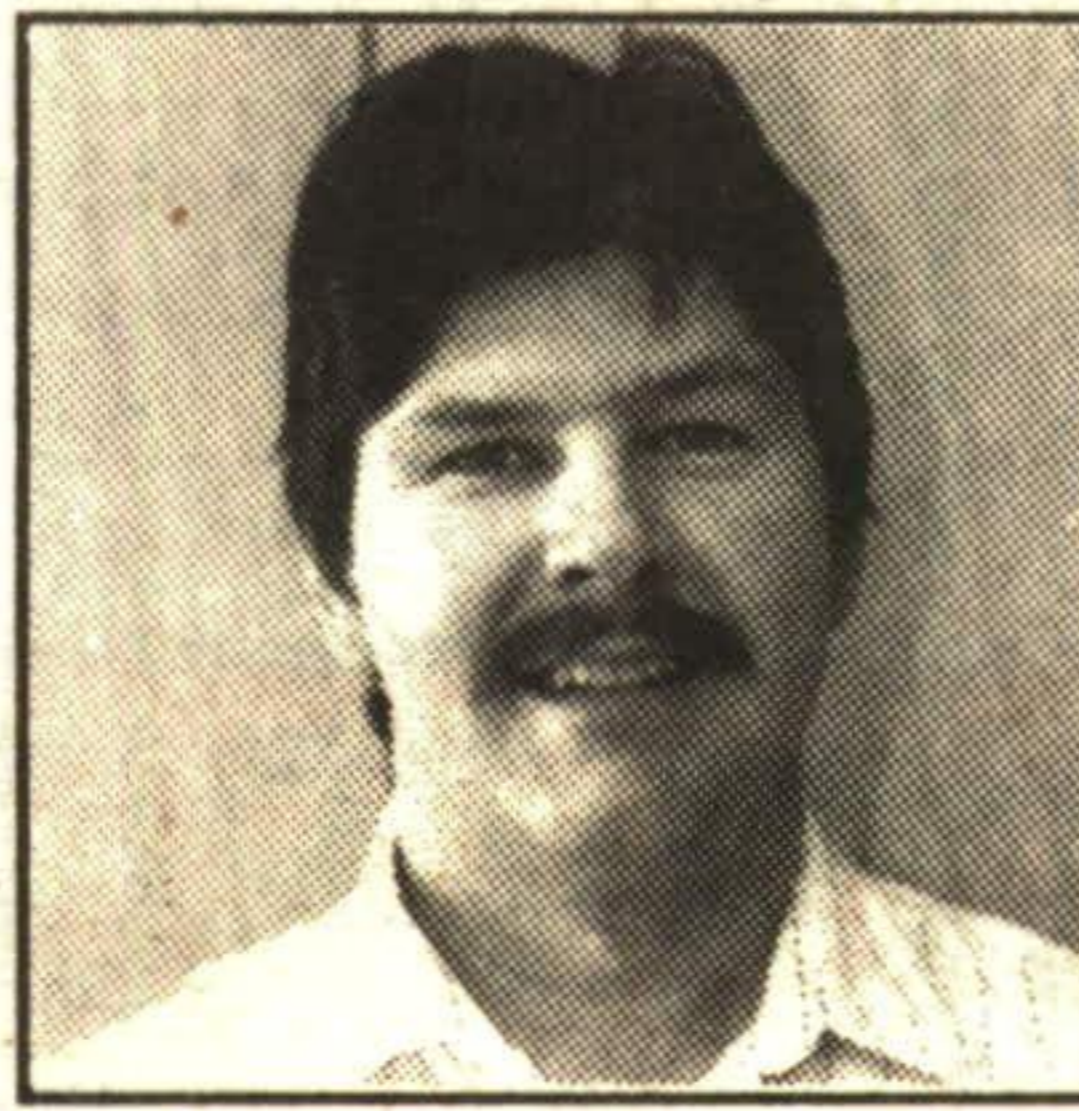

Servicing the Acton area for over 33 years, homeowners and contractors alike have come to depend on Acton Precast Concrete (APC) for a wide range of quality concrete products and related building supplies at competitive prices.

In addition to manufacturing a variety of concrete items required for rural building, such as septic tanks, well tiles, water cisterns and steps, the company also sells septic and drainage pipe, plastic and steel culvert as well as plastic septic tanks.

Electrical contractors and public utilities

also rely on APC for a full line of transformer bases and pads, underground vaults and manholes. With most products in stock and available for immediate delivery, the professionals know that costly on-site delays can be avoided without the need to order weeks in advance; and if "off the shelf" just won't do, custom formed units can be designed to suit their specific requirements.

DAVE TURNER

But commercial and building trades only make up a portion of Acton Precast's customer base. Owner, Dave Turner says a good portion of their business comes directly from the homeowner. Do-it-yourselfers come to APC for bagged cement and concrete mixes, concrete block and just about anything: concrete you could think of for your yard or garden. Patio slabs, paving stones, stepping stones,

curb stones, wall stones and garden edgers in a complete range of styles and colors are available to suit just about anyone's tastes or budget. Planter boxes and park bench ends are also very popular.

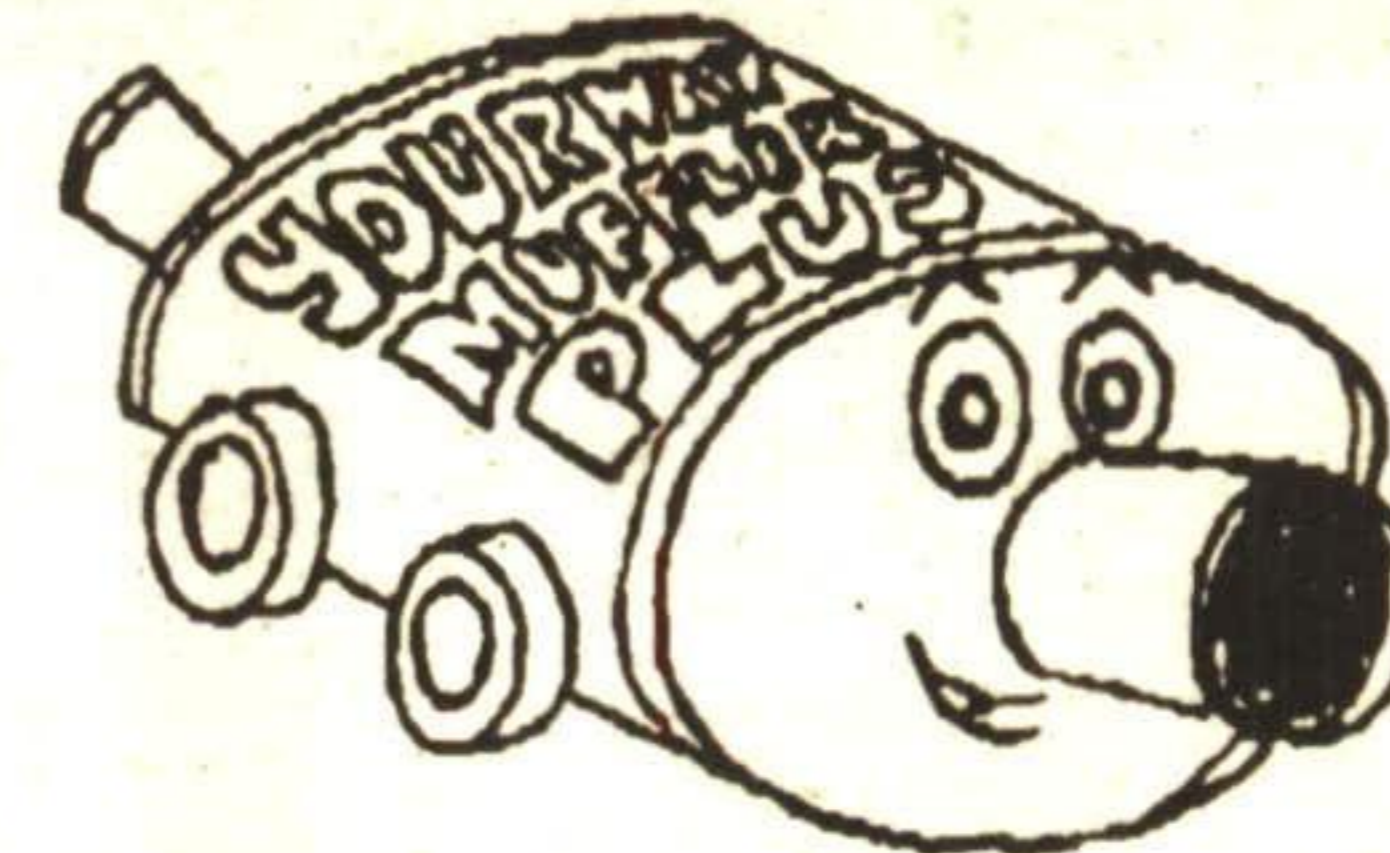

Customers soon realize that savings on quality products, as well as helpful advice from knowledgeable staff, is a combination you can only get from dealing directly with the manufacturer.

So whether you're building a house or designing a patio, give Dave of Acton Precast Concrete a call at 853-1529.
