

Heavy horses are saluted at Mountsberg

If you have ever worked with horses, done some riding, or simply enjoy watching them graze calmly in a lush pasture, you need to make the short drive to Mountsberg Wildlife Centre. Today (May 26) noon to 4 p.m. Mountsberg will be featuring the Percheron horses in the third annual Heavy Horse Demonstration.

This day is dedicated to the

Percherons at Mountsberg and all the hard work they do to make every student and public program special. The presentation will feature harnessing, shoeing, and plowing with equipment from years long past. A four-horse hitch will be stepping high with thundering hooves to demonstrate their strength and ability as well as provide an excellent picture taking

opportunity. Nuzzle a newborn colt frolicking in the fields and after your encounter with these gentle giants, be sure to join them for a horse drawn tour of the park.

Info: call Mountsberg Wildlife Centre (weekends) at (905) 854-2276. Mountsberg is located on Milborough Line, five kms west of Campbellville, between Hwy. 6 and the Guelph Line.

Acton FOODLAND

Mill St. East, Acton 853-0400

We at Acton Foodland would like to welcome Al and Janet Cunneyworth to our staff and team. Al brings with him ten years of service to our community and not to forget his charm, which is mirrored by his lovely wife, Janet.

For you who know Al, you'd know that it was with much thought and sadness before his decision to close his Butcher Shop. Although, to him, leaving town would have been even a greater loss, as he enjoyed serving his friends and customers over the years.

I, Tim O'Connor, am proud to have Al working in the Meat Department and look forward to working together in our new partnership. I will be moving to the Produce Department and Greg Auger will continue to head up the Grocery Department.

We are excited about the door of opportunities that this has opened and we look forward to serving you, our loyal customers.

Police look for 'special friends'

Halton Regional Police are looking for some "special friends" to take part in Special Friends Day at Appleby College on June 9th.

Special Friends Day provides an opportunity for developmentally and physically challenged youth ages five to 20 to join with police, fire and ambulance personnel for a day of fun, non-competitive activities.

Special Friends Day also features a lottery with all proceeds going to the Ontario Special Olympics.

If you know of a "special friend" who would enjoy participating, contact police at 825-4747 ext. 4716. Appleby College is located at 540 Lakeshore Rd. W. in Oakville.

SELECT ENERGY AND CARRIER

The inside guys who bring peace of mind and comfort to your home year 'round.

The most recognized heating and air conditioning company in the Halton region and the world's largest manufacturer of heating and air conditioning equipment have joined forces to present Georgetown & Acton area consumers with the best options in home comfort.

The Inside Guys, otherwise known as Carrier, an international company devoted to ensuring customers remain cool all summer and warm all winter, now supply their exclusive products to Halton's Select Energy. Having met the high standards of acceptance set out by Carrier, Select Energy was recently approved as an official Carrier dealer. In this expanded capacity, Select Energy can continue to meet the demands of customers who have come to depend on them for the sale, installation and service of all types of heating and air conditioning equipment of a residential and commercial nature. Other products within their field of expertise include natural gas fireplaces, water heaters, boilers, humidifiers and air cleaners.

Almost a century ago, Willis Carrier did for indoor climate control what Alexander Graham Bell did for communications and Henry Ford did for transportation. He changed the way we live with his invention of mechanical air conditioning. No longer were fans, ice and other vain attempts necessary to gain relief from the heat.

This newly combined team of inside guys at Select Energy are the trained experts who can determine heat loss and gain and recommend the proper size of heating and air conditioning systems required. It's expertise like this that ensures consumers are making the best investment possible to suit their individual needs and budgets.

Over the years, consumers have come to recognize and trust the Carrier name just as Halton residents have been relying on Select Energy to satisfy their home comfort needs. Now truly the inside guys, they look after your total home comfort needs and perform their services beyond the call of duty to ensure satisfaction, the cornerstone of Select Energy's success.

Select's own team of inside guys is comprised of 25 highly trained technicians, home comfort consultants and support staff. Everyone shares the commitment to providing a quality product and installation that results in happy, satisfied - and comfortable - customers.
