## Police search for suspects

Police are seeking two youths, a male and a female, after a break-in to Harrison School last weekend. A rear window was broken and sporting goods were loaded into a grey plastic garbage can, police report. This included basketballs, volleyballs, soccer balls, footballs and badminton racquets.

15-year-old female, about 5 ft. 4 in. with short bobbed dark hair wearing a beige ribbed shirt and short black shorts. Police say they believe the suspects live in the immediate area and are asking for help from anyone who might have seen the suspects. Please call 878-5511.

A resident in the area saw two people carrying a garbage can Saturday at 3 p.m. or 4 p.m. on a pathway on Mackenzie Dr., and then headed south on Delrex Blvd., police said. Total loss and property damage was about \$800.

Police are looking for a 15 or 16-year-old male, about 5 ft. 6 in. to 5 ft. 8 in. with a slender build. He had short dark hair and was wearing a red plaid shirt and beige shorts. Police were told that this suspect was bleeding profusely from his right hand or arm.

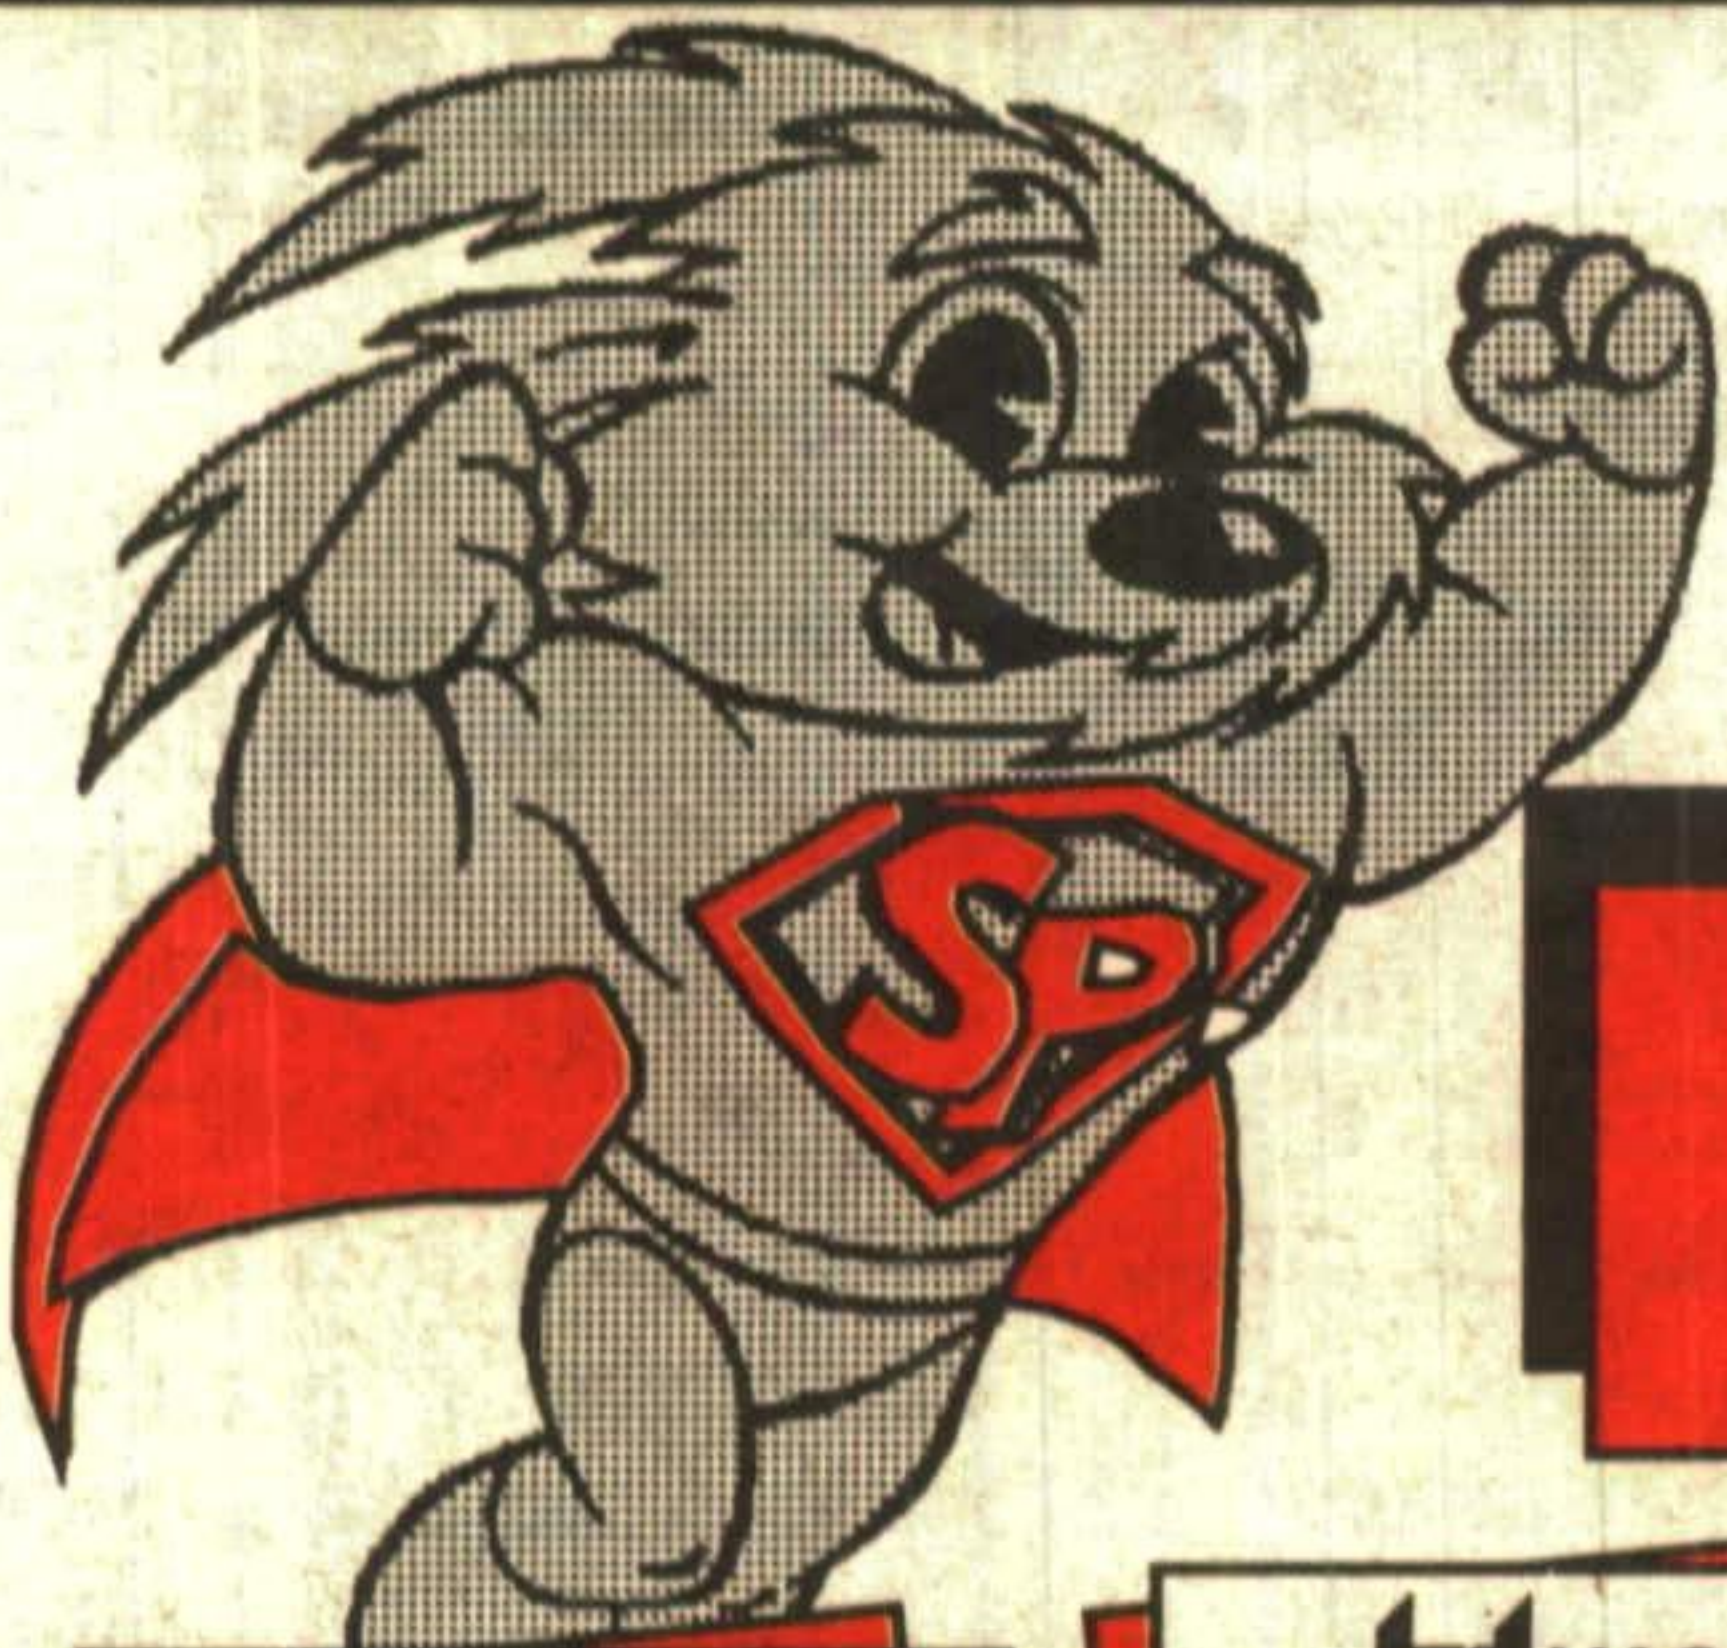

The second suspect was a 14 or

### Cars rearended

A 1993 Ford van rearended a 1992 Plymouth, which in turn struck a 1995 Nissan Tuesday on Guelph St. by Louisa St., police said. The cars were waiting for traffic to clear at about 5:30 p.m. The driver of the van, a Georgetown resident, was charged with failing to take his vehicle for a safety inspection. The van sustained moderate damage, while the Plymouth was severely damaged.

## WHEN EXERCISE IS NOT ENOUGH!

Body sculpting by liposuction is literally a dream come true.

Localized accumulations of fat, which may be inherited and sometimes impossible to eliminate by exercise or dieting, can now be removed permanently by liposuction, never to plague you again.

The concept of liposuction is surprisingly simple. It is a technique that improves the body's contour by removing excess fat from fatty deposits located between the muscle and the skin. Fat cells that are removed by liposuction never grow back.

In men, the most commonly treated areas include the love handles, abdomen, breasts, chin and neck.

In women, the most frequently treated areas are the abdomen, hips, knees, calves, chin and neck.
