

It may be worthless as a cleaner, but we'll give you \$100* for your old vacuum.

Even when they're running fine, portable vacuums have their problems. Like bumping into every piece of furniture they can find. And hanging on around every corner. Then there's the stair climb event. But the real problem is that the initial suction power is quickly lost as the bag fills. So after all the work you put into vacuuming, you still find dirt. There must be a better way! A Beam central vacuuming system solves these problems and costs much less than you'd think. Often less than a portable! And to prove it, we'll give you \$100 for your old machine when you buy your new Beam. So see Haltalarm today.
