

148 people died in fires last year

Last year, 148 people died because of fires in Ontario. Most of them died in their homes... where they felt protected and safe. Most fires are careless accidents

that can be prevented. Every home should be checked regularly to find and remove fire hazards. Contact the Halton Hills Fire Department, Fire

Prevention Division at 873-2600, Ext. 207 for information about home fire hazards. Remember, fires and burns can be prevented.

DON'T BECOME JUST ANOTHER FIRE STATISTIC IN HALTON HILLS

YEAR to date	ALARMS	DOLLAR LOSS	INJURIES	FATALITIES
1992	260	\$819,050	4	0
1991	215	\$660,200	2	0
1990	204	\$930,675	8	0

The Halton Hills Fire Department is making a great effort to reach the adult population of our community with an "Educate to Prevent" program.

At the first of each month, statistics will be printed in this newspaper to keep fire safety constantly on the minds of our citizens and thereby reduce the number

of fires, the amount of fire loss and the number of injuries or fatalities. The above stats are cumulative totals to the end of June.

RELINING DENTURES

Loose dentures on a resorbed jaw bone cause the distance between the nose and chin to become too short. As a result, the mouth and lip muscles sag, therefore causing the skin to become wrinkled and lined. The answer to this problem is either new dentures or "relining". If your dentures are under 5 years old, relining is probably the answer.

With relining, impressions are taken of the gums and bone as they are now. New plastic is added inside the dentures so they adapt to the new jaw contours. This makes the lips and cheeks fuller, therefore some of the wrinkles actually become "ironed out". It also makes the denture fit more snug to the gums, so that the denture becomes tighter.

Your gums are constantly changing and shrinking of the gums can create sharp ridges forming, because of the pressure of the denture. This can cause considerable discomfort, and can lead to permanent gum damage. Relining your denture is a quick, inexpensive way of giving you much needed comfort.

Your denture and mouth tissues should be checked once a year, as ill fitting dentures can lead to various health problems.
