Tooth Chatter

"HAD A FALLING OUT?"

If a tooth is lost it's important to replace it with an artificial one to prevent your other teeth from drifting out of line. These neighbouring teeth can become more susceptible to decay and gum disease. Tooth misalignment can also cause jaw problems.

These are four main types of artificial teeth. Each is designed to solve a specific problem.

- A removable partial denture.
- Complete or full dentures.
- Dental implants.
- A fixed partial denture or fixed bridge.

Be sure to carefully consider which dental prosthesis is right for you. You do not need a referral; simply call our office direct.

Consultations are always free. If you have any questions regarding your dentures, give our office a call.

Friends

"My friend Chris visits me at school every Monday morning. Sometimes we draw together, we play checkers, we laugh together. We even talk together. I'm glad I have a friend like Chris."

CHILDREN'S AID FOUNDATION OF HALTON

Do you have one hour a week to be a "friend", like Chris, to a child in Halton? We need volunteers 18 and over. Our volunteers are diverse. We encourage anyone with an interest in children, students to seniors, to volunteer and also encourage multicultural involvement in our program.

If you would like to receive more information about this rewarding volunteer opportunity, please call:

Diane Salter, Friends Program Director
