OCTOBER 15, 1946-1996

We are celebrating our **50th** Wedding Anniversary. Thankful for our dear family, relatives and friends we have found here in Canada. Count Your Blessings One By One

RENEE AND ERIC BAKER

Mark Kalous exhibit opens at the Gallery tomorrow

If you love nature and art, don't miss the Mark Kalous exhibit at Halton Hills Cultural Centre Gallery, Oct. 21 to Nov. 4.

The Acton artist combines his two loves—painting and nature together with breathtaking results.

Specializing in oil and acrylics, he trained his artist's eye on portraits, landscapes, Mennonite scenes and most recently, Mother Nature's creatures. One of his best selling prints, Catnapping—But Alert, is a realistic portrait of a Canadian lynx. Critics have compared its style and skill favorably with renowned artist Robert Bateman.

Kalous was born in Czechoslovakia, but arrived in Canada as a refugee in 1950. The Iron Curtain kept him separate from his wife, but in 1965 they were reunited, and they settled just outside of Acton. Three years later their son joined them in their new home.

In the early eighties, Kalous was

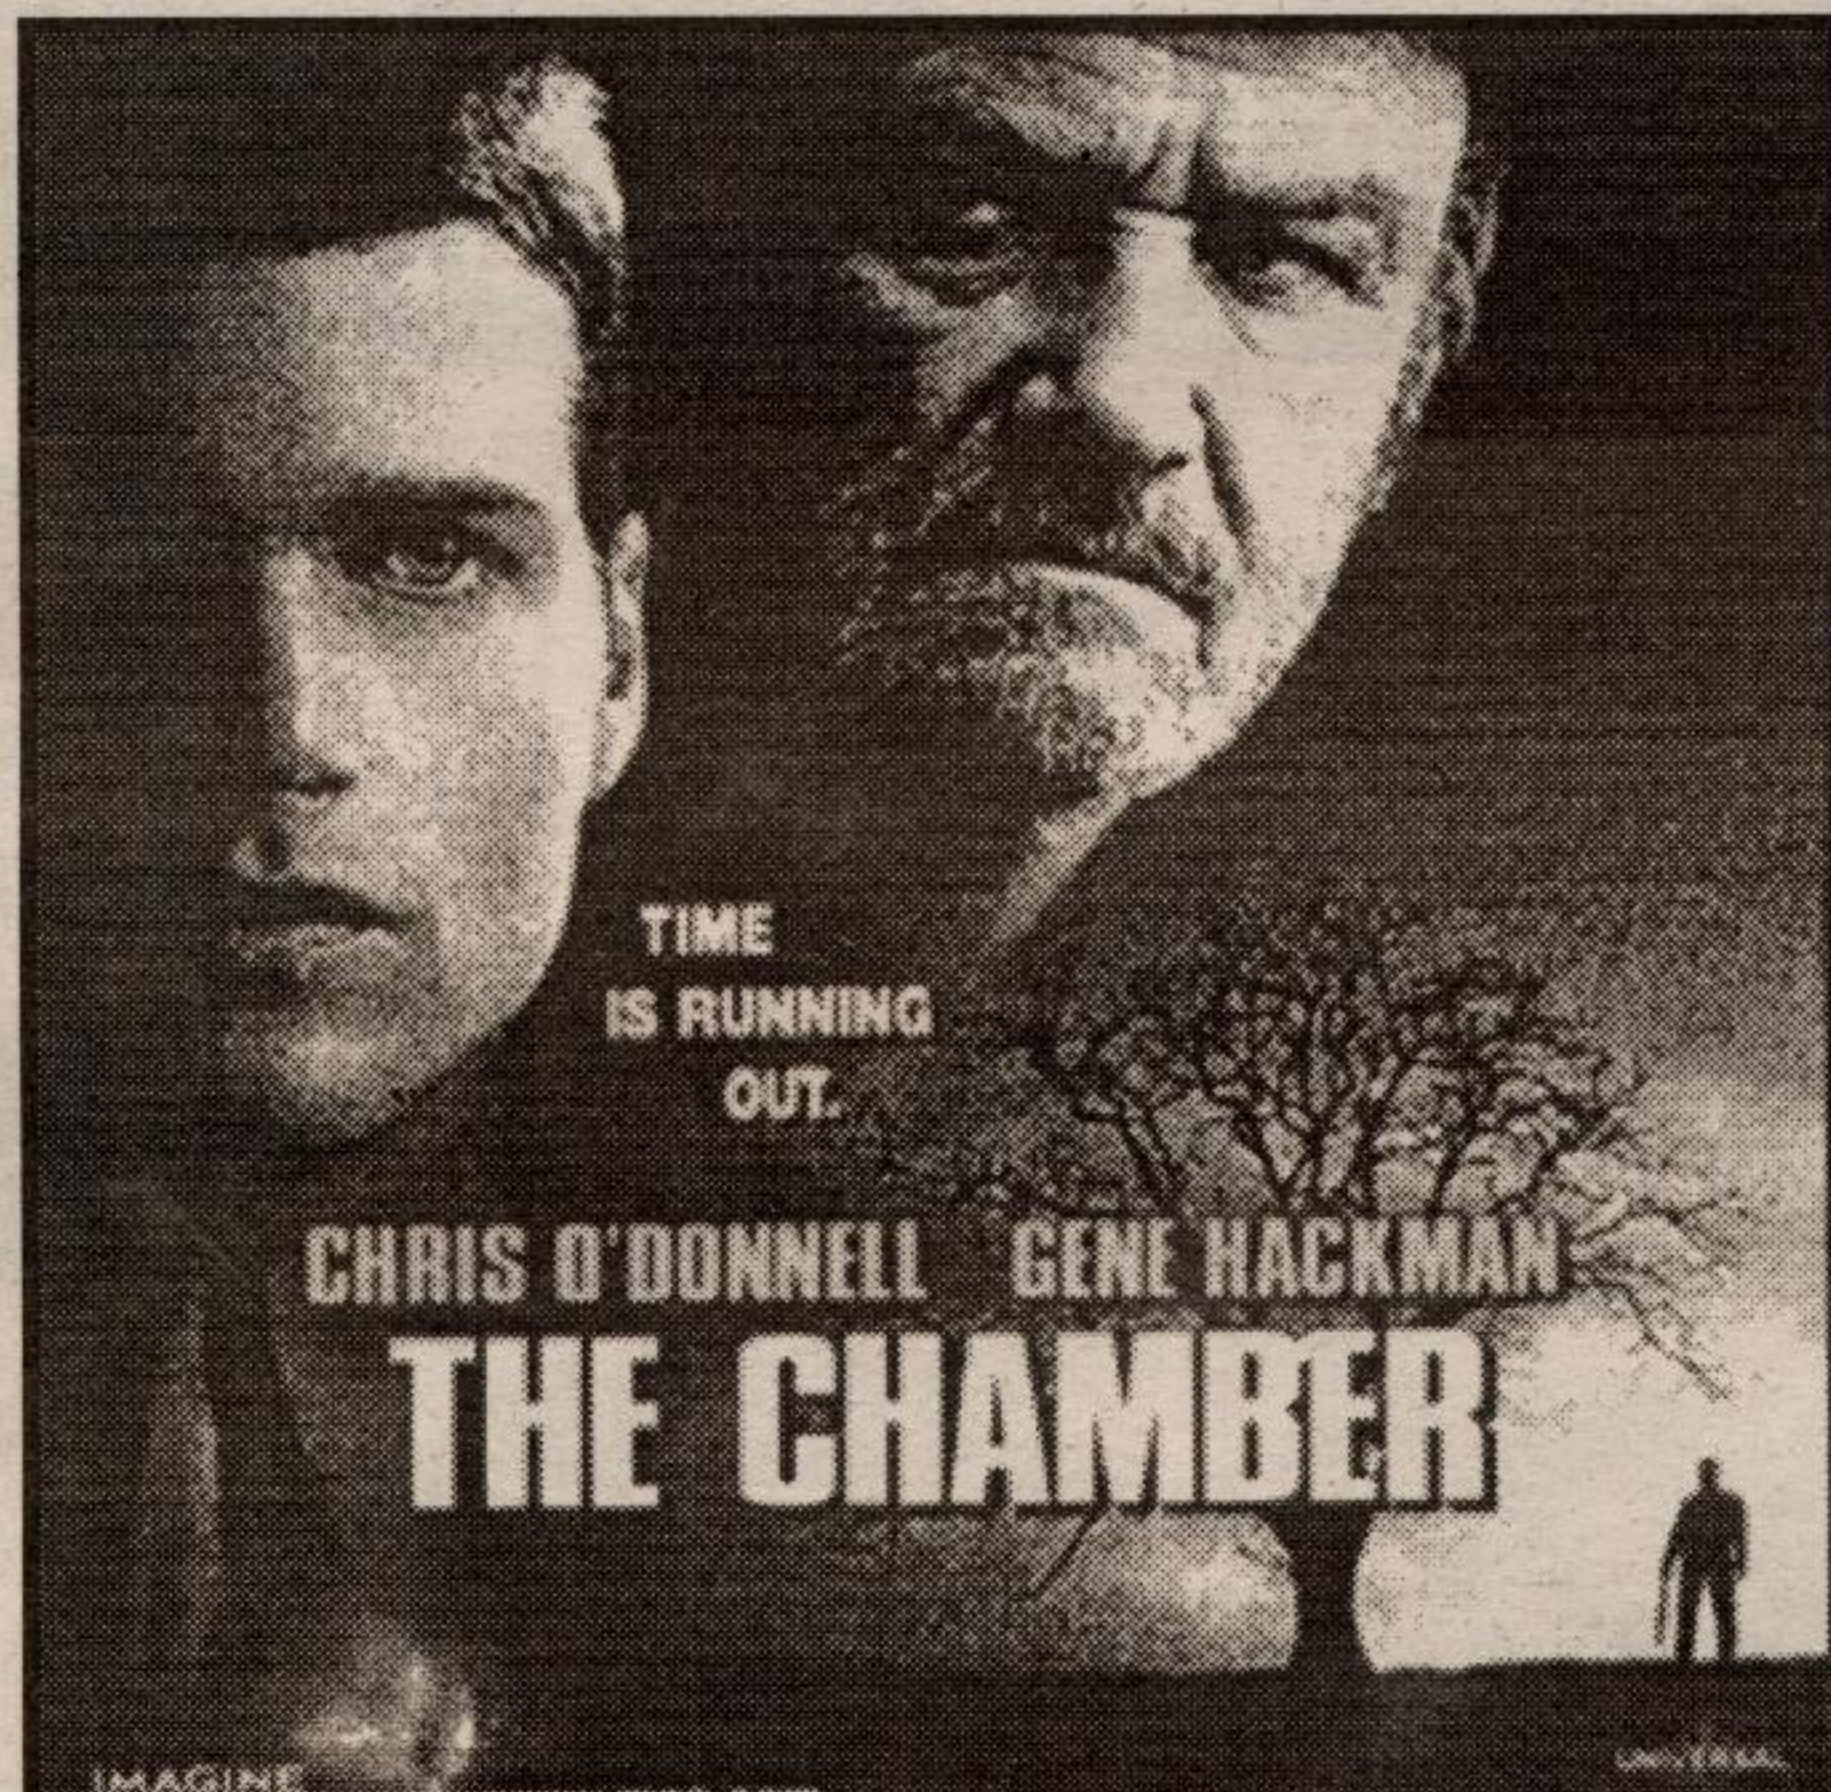

Acton artist Mark Kalous opens his fifth annual art exhibition and sale at the Gallery. On view will be artwork such as Bluebirds, above.

laid off from his tool and die maker job and decided then to turn his attention full time to his art. His paintings now hang in many private collections around the world, as well as a few art galleries.

His first show at the Cultural Centre in 1989 received favorable reviews and they have grown with each annual show.

This year, his fifth anniversary at the Gallery, the official opening and reception will be held on Oct. 22, 6-9 p.m. Coffee and tea will be served with cookies and homemade pastries.

Kalous will also be in the Gallery every day of his exhibition and sale, from 2 p.m. until the library closes.

DENTURIST

RELINING DENTURES QUESTIONS AND ANSWERS

- Q:** What is a permanent processed reline?
A: A processed reline is a way of re-basing your denture with the same type of long cure acrylic from which it was originally made. This will make the denture fit more snugly to your ridge.
- Q:** Will it change the appearance of my teeth?
A: No, it only re-fits the denture to your ridge, no change of tooth position takes place.
- Q:** What are soft, or cushion, relines?
A: A permanent soft-rubber lining is applied to the lower denture inside ridge. Soft, or cushion, relines are an excellent alternative for those who have sensitive oral tissue and tend to get frequent sore spots. A properly applied soft lining can provide years of comfortable chewing and smiling!
- Q:** How long will it take?
A: Most relines commenced in the morning are completed and returned to the patient that afternoon.
- Q:** What is I'm a working person and can't give up my teeth for a day?
A: The alternative is to bring your dentures in after work. It can be relined and returned to you the next morning by 8:30 a.m.
- Relining an existing denture is an excellent economical way to prolong the life of your plate by restoring and maintaining a firm comfortable fit. Consultations are always free!

You do not need a referral; simply call our office direct.

COUNSELLING THE NEW HEARING AID USER

The following few tips, if followed correctly, will prolong the benefits and enjoyment of better hearing:

- *Do not get the hearing aid wet
- *Do not leave the instrument where it is too hot or cold
- *Try not to drop the hearing aid
- *Do not spray cleaning solution or hair spray on the instrument
- *Keep the instrument and batteries out of reach of small children (especially pets)

If any of the above problems do occur, please don't hesitate to call
