

High school graduations

At Acton High

Acton High School handed out several special achievement awards during its commencement, Nov. 1. Honored were front (from left) Sarah Austin, Shannon Birrell, Gregory Finley. Back (from left) Emily Savage, Pamela Olsen and Christa Rigney. Austin received the Governor General's Academic Medal and the Outstanding Graduating Student Scholar Award. Rigney and Birrell shared the Student Council Awards. Finley, Savage and Olsen were honored for their participation in the Atomic Energy Commission Labs contest. Finley was also honored for his silver medal in the Halton Technical Skills Olympics. Lise Grimwood (not pictured) delivered the valedictory address.

WHEN EXERCISE IS NOT ENOUGH!

Body sculpting by liposuction is literally a dream come true.

Localized accumulations of fat, which may be inherited and sometimes impossible to eliminate by exercise or dieting, can now be removed permanently by liposuction, never to plague you again.

The concept of liposuction is surprisingly simple. It is a technique that improves the body's contour by removing excess fat from fatty deposits located between the muscle and the skin. Fat cells that are removed by liposuction never grow back.

In women, the most frequently treated areas are the abdomen, hips, knees, calves, chin and neck.

In men, the most commonly treated areas include the love handles, abdomen, breasts, chin and neck.
