**Opening day**

Several people came out to the The Artisan's Attic in downtown Georgetown recently for its grand opening. The shop, located at 115 Main St. S., in the same building as The Ivy House Tearoom, features crafts and gifts made by

seven local artisans who will also work in the store. On hand for the ribbon cutting were from left, owner Marion Boudreau, artisan Sue McNally, Mayor Marilyn Serjeantson, and owner Edie Davidson.

## WHEN EXERCISE IS NOT ENOUGH!

Body sculpting by liposuction is literally a dream come true.

Localized accumulations of fat, which may be inherited and sometimes impossible to eliminate by exercise or dieting, can now be removed permanently by liposuction, never to plague you again.

The concept of liposuction is surprisingly simple. It is a technique that improves the body's contour by removing excess fat from fatty deposits located between the muscle and the skin. Fat cells that are removed by liposuction never grow back.

In men, the most commonly treated areas include the love handles, abdomen, breasts, chin and neck.

In women, the most frequently treated areas are the abdomen, hips, knees, calves, chin and neck.
