*From My Home To Yours*

At this time of year we always reflect back on the last year and look forward to the next.

This past year has been very good for me in my real estate and mortgage business and I thank everyone for their support.

However, in spite of all the monetary things we have, the one thing money cannot buy is good health. This past year, this was driven home to my family as two of my immediate family members experienced rather severe health problems. So for 1997 I would like to wish all my friends and all the people I worked with in either buying or selling their homes or arranging mortgages **GOOD HEALTH** in 1997.
