

A GIANT STEP FOR GEORGETOWN

We are **lucky to live** in Georgetown. The air is a little cleaner - a little fresher. We're far enough away from the big city to escape pollution and congestion. It's one of the many good reasons we live here.

We value our **environment**.

And we **value you** too.

On April 2nd

The Georgetown Marketplace becomes
Refreshingly Different.

We become a **non smoking** mall.

The **majority** want it. That's why we've done it.

You know that second hand smoke is noxious.

And the smokers who visit - take care of your fellow visitors and use the "**Butt Stops**" at each entrance. We thank you.

Now your visit will be different - **Refreshingly Different!**

*Refreshingly
Different*
