Novice Sabres claim title

James Burgie and Spencer Veness posted back-to-back shutouts as the Acton Nellis Construction Novice Sabres rallied to defeat Erin/Hillsburgh in the Tri-County final.

Veness blanked Erin/Hillsburgh 5-0 in the third and deciding game. Anthony Kri and Andrew Marcoux each scored twice for Acton and Garrett Williams added the other goal. Braden Artem drew a pair of assists while Craig Kirkwood, Shaun Harkley and Daniel Kearns each had one.

Burgie helped pull Acton even at a game apiece with a 4-0 shutout in game two. Williams, Artem, Marcoux and Greg Henry each scored once. Craig Kirkwood, Ryan O'Connell, Harkley, Chris Richard and Kyle Fellows assisted on the goals.

Erin/Hillsburgh took the opening game of the series, edging the Sabres 2-1. Kirkwood scored for the Sabres and although Veness shut down Erin/Hillsburgh in the third, Acton couldn't get the equalizer.

Atom MVP omitted from awards list

Information submitted to The Independent & Free Press, which ran in April 12 edition, listing the Georgetown Minor Hockey Association Weekend of Champions awards was incomplete.

Jason Kostyuk-Yakymchuk won the Most Valuable Player Award for the atom division. Kostyuk-Yakymchuk played for the A&S Engraving Sharks. Chad Mercer, listed as the MVP for the division, was the minor atom player of the year.

DIGITAL AUDIO PROCESSING

Digital technology is used everywhere. It enables communication satellites to link people and computer systems all over the world. In products such as telephones, compact disc players and personal computers, digital technology has become part of our daily lives. Now, digital technology transforms the way we communicate on a more personal level.

Researchers have spent years looking for a way to put the superior acoustic quality of digital sound processing into something as small as a hearing instrument. Finally the breakthrough, digital audio processing designed to fit into a small, comfortable and attractive hearing instrument, using the same digital technology that brought superior sound quality to CD-players, sound reproduction is clear, distinct and provides a rich and full sound picture. Soft sounds are amplified so they become audible, and loud sounds are kept from becoming uncomfortably loud.

Communication forms, maintains and enhances relationships between people. Good communication is a vital ingredient to an enriched life. Now digital technology offers a whole new range of possibilities for people with hearing difficulty.
