

“Planning our future, to preserve our past.”

Georgetown's unique character lies in its heritage as a safe, friendly, neighbourhood community. Our future should respect our past.

Georgetown has always been a special place to live and work. Residents and town officials have always planned development in the area with an eye to preserving the natural beauty of the land. And the town should be proud of its achievement. Georgetown has so much to offer and it is a beautiful place to live.

Preserving the beauty of Georgetown is not an easy job. It requires foresight and responsible planning.

Georgetown is about community!

Presently, 138 hectares of Georgetown South are designated for industrial development. If the area is developed for various industrial uses there will be significant ramifications for all of the residents of the Georgetown community.

With industrial development, the landscape and community environment of Georgetown will change. The neighbourhood will look and sound considerably different than it does today.

Once this change occurs... there is no going back.

We need to consider redesignating Georgetown South as a residential area. We need to make the right decision now for the future of Halton Hills.

Rezoning Georgetown South benefits the entire community.

As Georgetown moves forward, it makes sense to

keep the residential areas of the town together and not divide them with industrial zones.

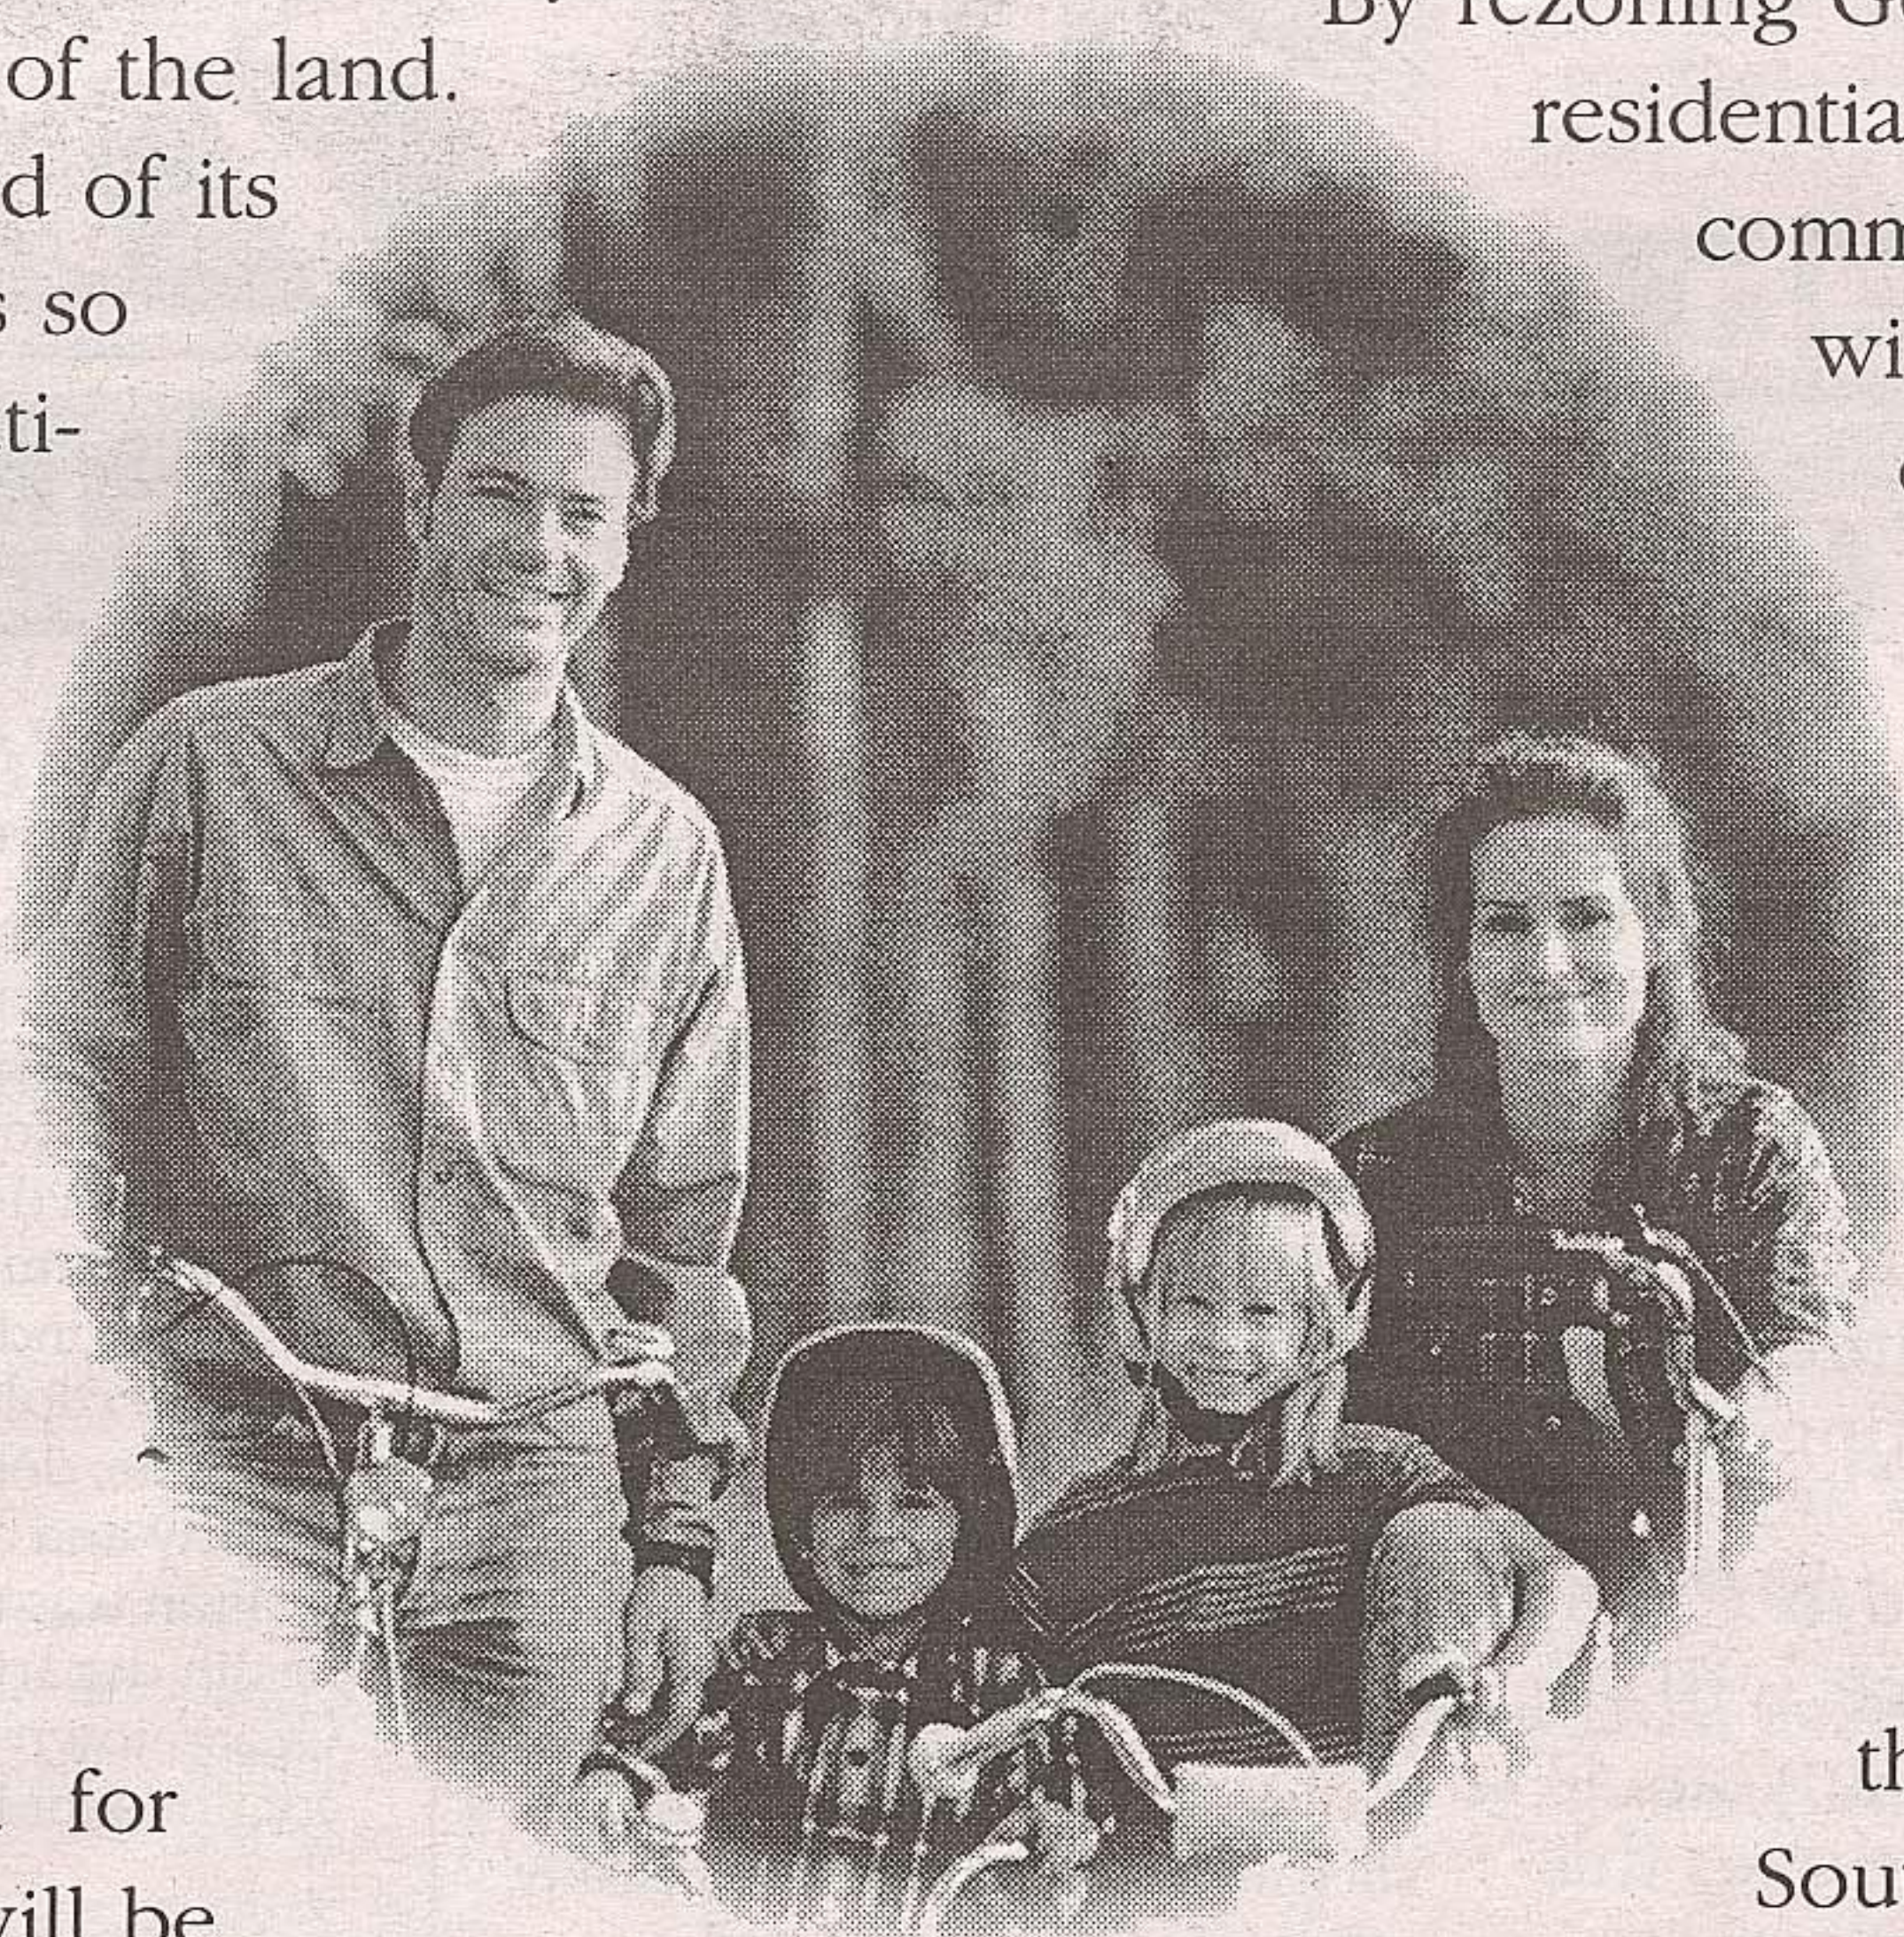

By rezoning Georgetown South as a residential area, we will enhance our community. Residential development will use less water and treatment capacity than industry and it will increase municipal revenues. This will help to provide funds for new schools, parks and recreational facilities. It will support existing businesses and attract new commercial and retail companies to the area. Halton Hills Village Homes is committed to Georgetown and the development of Georgetown South because we are committed to the future of Georgetown.

Let us know what you think.

Halton Hills Village Homes and its predecessors have been part of this community for over 35 years. We have planned and developed a number of neighbourhoods in the area and we will continue to do what we can to enhance the quality of life in Georgetown.

We will continue to provide you with information about this issue; and, as a long-term partner in the community, we are interested in knowing your thoughts on the subject.

Please call us at (905) 874-3060 ext. 306 to share your opinions.

Georgetown has a beautiful future, let's plan it together.
