Site Support Team Leader

Apply your 5+ years of Project Management/Supervisory experience to providing support on HP 9000 series servers and to managing IT operations. A mature and knowledgeable leader, your interpersonal and organizational skills are outstanding.

Project Manager

You will be responsible for all the duties associated with the execution of major technical integration projects including scheduling, resource loading, budgeting, tracking, risk management and problem resolution. You will develop overall project plans and report regularly on the status of projects relative to those plans. You will ensure that the quality provisions are applied as required and will maintain a detailed project book which is used to accumulate all project documentation over the life of the project. You require experience as a Project Manager working in technology development and integration, excellent presentation, summary reporting and communication skills, experience with knowledge-based systems, ISO standards for quality management and knowledge of PC-based planning tools like MS Project.

Helpdesk Analyst

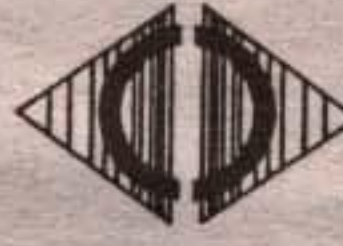

Working at our Queen St. location, you will provide helpdesk support to offsite clients. Ideally, you have helpdesk experience and are skilled in HP 9000, UNIX and NT environments. Excellent communication and troubleshooting skills, and knowledge of MS Office, Exchange, PC anywhere, HP hardware, MCP NT server and workstation, and HPUX are required. Ideally, you have MCSE certification (or working towards it) and a knowledge of total control hardware and Remedy ARS.

Buyer

You bring 5 years of related buying experience and have had extensive dealings with vendors/distributors across Canada. Ideally, you have a strong technical understanding of inventory concepts in a computerized environment. Knowledge of systems integration and compatibility is a strong asset in the ever-changing PC world.
