Dear Marlene:

I would like to take this opportunity to express my thanks for all the help you have given my daughter. The Sylvan math program she has been on has proven to show amazing results.

My daughter came to you less than one year ago, her grade level in math was 50% and her self-esteem was extremely low. Within six months she has come up three grade levels and is now scoring in the 80% range in school tests. She has become a very self-confident child working independently in school and has learned to try new skills without feeling she can't do it.

Your professionalism and positive teaching methods have made a major difference in my daughter's school and personal life. My daughter continues to look forward to her classes in your centre and looks forward to becoming a real math genius.

Again, thank you so much for everything!

As a testimonial to your great efforts we offer an excerpt from the Muskrat (Eastern Ontario) Bantam team "Your organization deserves a pat on the back for all the hard work and preparation that must have taken place to result in such a well run tournament. The many added touches (dressing room and bench name signs, etc.) were very much appreciated."*

*And from Southpoint (Southern Ontario) "On behalf of our team, Southpoint Capitals, I would like to congratulate you and your committee on a well run tournament. All the games were on time and the officiating was great. We had a fun time for the four days that we were in attendance."*
