CARING FOR OTHERS

You may find yourself caring for the health of another person - a family member or close friend. When this person needs denture care, there's a lot you can do to help. It may be a little awkward and embarrassing at first, but go slowly.

All dentures- removable or fixed-must be cleaned daily. Check dentures for cracks and stains. Fill the sink with water and scrub removable dentures thoroughly with a denture brush and soap. Rinse removable dentures in clear water after cleaning. Dentures should be soaked overnight. Be careful when cleaning around metal clasps and framework.

Get the other person to guide you in removing and replacing dentures. (With complete dentures, remember uppers go in before lowers).

If you have any concerns regarding your dentures, feel free to give our office a call.

You do not need a referral; simply call our office direct.

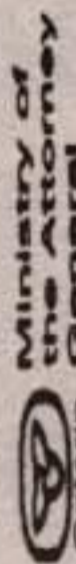

We build beautiful smiles!
