

Golfers fore-warned

Local Georgetown Optimists Floyd Nelson and John Fendley were on hand to give Halton Hills Mayor Marilyn Serjeantson a few tips on her form at the recent annual Optimists Mayor's Golf Tournament at Georgetown Golf Course.

Standard Products

Celebrating 40 years

Standard Products (Canada) Limited Georgetown plant was opened on September 15th, 1959 and on Saturday, September 11th will celebrate forty years in business.

Employees and retirees will celebrate the event by participating in an "Open House" and a dinner to be held on September 11th.

Standard Products Georgetown is a Tier 1 supplier to the Automotive Industry providing sealing systems for vehicles such as the Chevrolet Lumina, Buick, Regal/Century, Chevrolet Impala and Ford Crown Victoria. Through the efforts of employees both past and present and continued focus on Low Cost Producer Strategy the Plant is well prepared to meet the challenges of the next millennium.

The Plant has not only contributed significantly to their customer base with the on-time delivery of quality parts but also within the community of Halton Hills. For instance, over the past two years Georgetown Plant has donated in excess of \$60,000 to community activities such as Georgetown Hospital, Halton Lung Association and many more organizations. In addition, scholarships have been established with Acton, E.C. Drury and Georgetown District High School to assist students pursuing tertiary education in Engineering Schools.

Standard Products Georgetown looks forward to continued success both within the automotive industry and within the community of Halton Hills.
