

NEW HOMES BUYERS GUIDE

Developer specializes with...

Over 40 years of experience in the building industry

SUNFIELD has specialized in the Real Estate Sector in three main areas: Low rise residential, land development and commercial development.

It has, through the years, built over 5,000 homes in the Toronto area and has been involved in larger indoor shopping centre and outdoor commercial development and in the acquiring and servicing of large tracts of both residential

and industrial lands.

SUNFIELD, in association with other prominent developers, has developed 12 high rise apartment buildings containing some 2,000 residential units. In addition to Sunfield's impressive portfolio of developed Canadian properties, there is its involvement in a European Division which has been developing 10 high-rise office buildings in Rome, Italy, a commercial banquet

and convention centre in Sora, Italy, and in the management of a portfolio of residential apartment units built in the last 15 years in the areas immediately surrounding Rome.

Another project just completed is a 200-unit residential subdivision in the City of Burlington, Ontario, consisting of semi-detached homes and townhouses.

Sunfield is currently marketing and building two residential projects: 91 single detached homes in Georgetown and 66 semi-detached and single detached homes in Markham.

The newest site Sunfield is working on is located in the heart of Markham offering both luxury townhomes plus large 40' singles. Sunfield will be marketing its upscale products in early 2001.
