**Halton Hills lacks democracy!**  
Halton Hills needs immediate attention regarding our "toxic hot spot" situation (identified by the federal government). We have some of the highest rates of cancer and other diseases in the province. The quantity and quality of our water is never dealt with. Halton Hills must start preserving what farmland we have left, but not at the expense of the farmers. As an active member of this community for 15 years, I have observed very little or no regional information being relayed to the public by our regional representation. If elected for regional councillor for Wards 1 and 2, I will accept nothing less than to represent you, the people.

## Ward 2

### Kevin Kuiack

**Occupation:**  
Vice principal  
**Previous political experience:**  
Ward 2 councillor (five years)

As the current town councillor, I've been able to demonstrate my strong commitment to the rural area. My involvement in the Glen Williams Secondary Plan, my resolutions to provide monies to upgrade rural roads, my motions to direct truck traffic, my ongoing concern over our aging bylaws have enable me to effectively deal with rural issues. Water, the 401 Corridor, our Official Plan review, transportation all still need the strong representation that I can provide.

### Bryan Lewis

**Occupation:** Consultant— hockey operations of the NHL  
**Previous political experience:**  
None

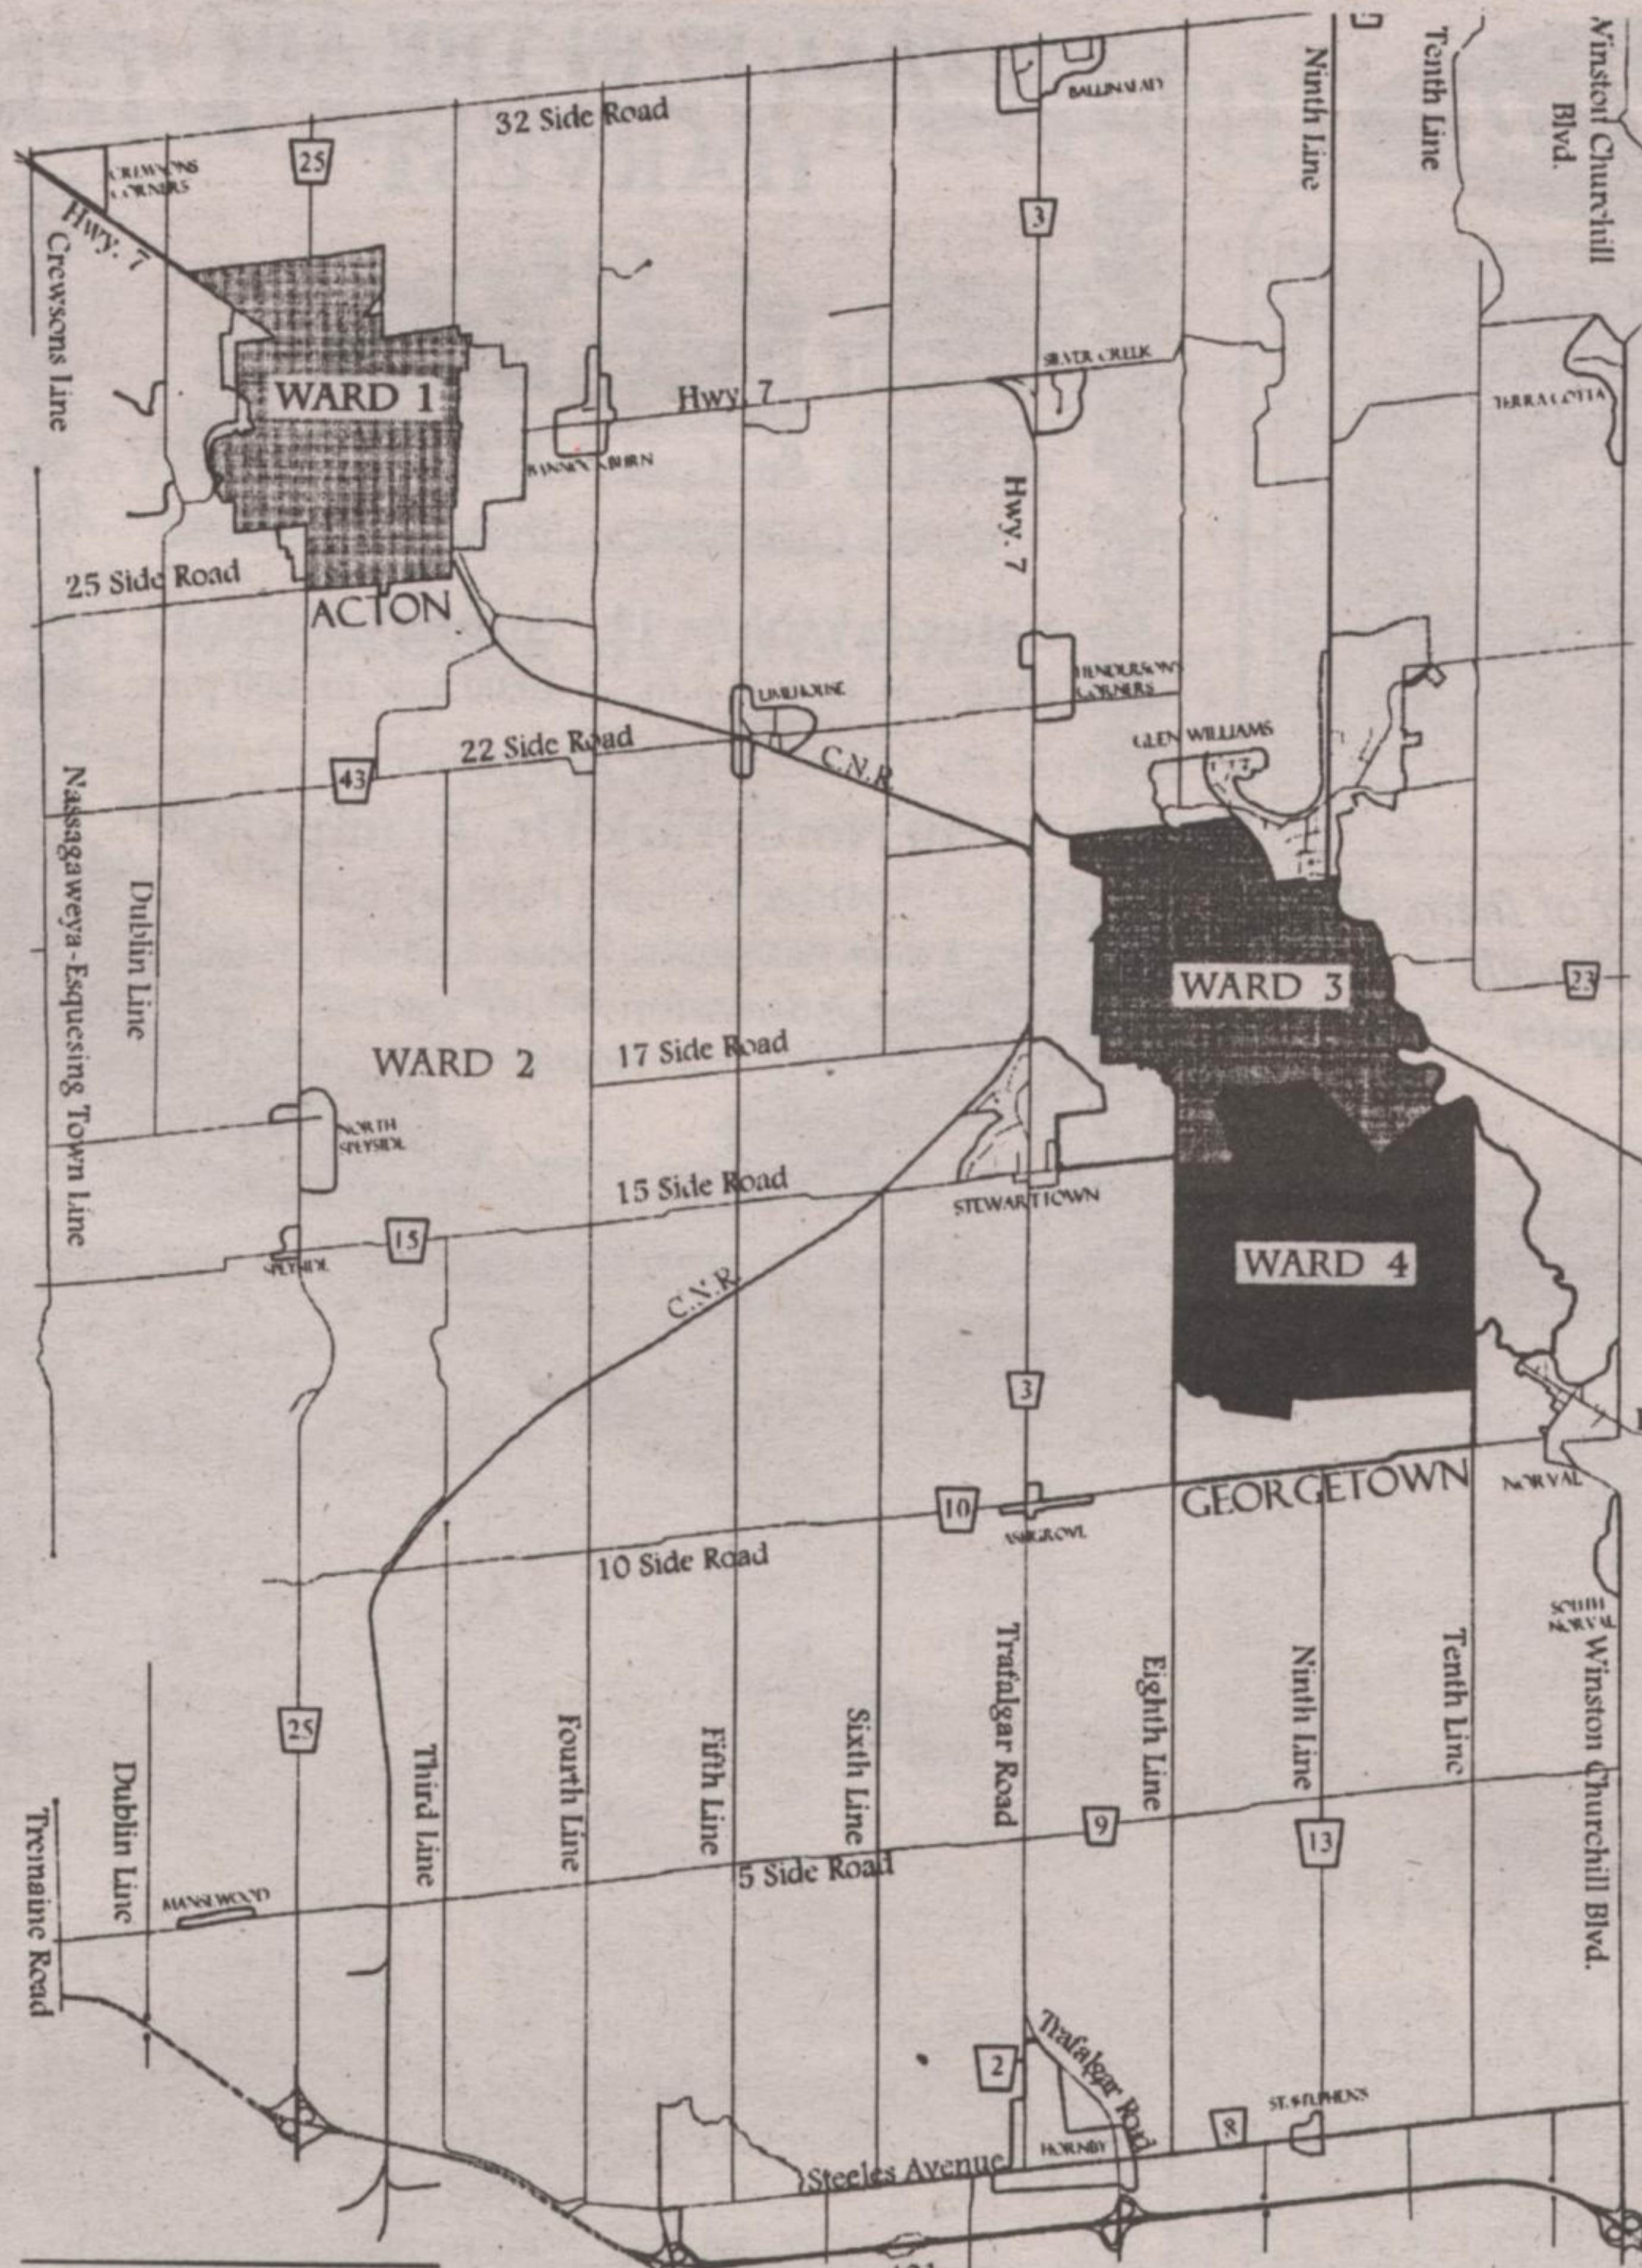

My family has lived and been active within the rural community of Halton Hills for more than 27 years. I am currently chairman of the Central Esqueping Ratepayers' Association. The rural communities of Halton Hills have many concerns that must be addressed in a very open manner, within the council chambers of the Town of Halton Hills. Rural issues confronting farmers, residents and entrepreneurs: Water, gravel pits and trucking policies, auto wrecking operations, 401 Corridor, growth into the farming community, road safety including rail crossings, garbage are but a few of the many issues unique to the rural community of Halton Hills. Councillors working together, in the best interest of Ward 2 within the Halton Hills community MUST be a goal. I am prepared to make this commitment.

### Joan Robson

**Occupation:**  
Interior designer/decorator  
**Previous political experience:**  
None

Many rural residents feel that their farms and communities are "under siege" from an ever-increasing need for water to support new development and roads overworked, under-serviced and under-monitored. The identity and very existence of our way of life is threatened. Having long been a strong participant in community interests and volunteer work, I'd like to sit "on the other side of the desk" for three years to see if the system needs to be as cumbersome and non-inclusive of residents as it appears. I'd like to speak out for change. My daughter is 20 now and my business is going well, so the time is right for me to make the best contribution I can— just as my husband Bill did at region.

# Town of Halton Hills municipal ward boundaries

## Ward 3

### Mike Davis

**Occupation:** Self-employed professional engineer  
**Previous political experience:**  
Halton Hills Hydro commissioner (three years)

I have had the pleasure of meeting many constituents on my campaign travels and have heard many important issues. These are issues of infrastructure decay, unacceptable water, roads in need of repair, lack of sufficient recreational services. The list goes on. We need a vision for this town. What do we want it to be? With a strong vision, I will approach each issue with a long-term solution that makes sense. I am not attacking my opponents, personally. Unlike them, I have no ties to the development community requiring me to declare a conflict of interest on affected issues and remove myself from discussing or voting at council. I will be there to shepherd your issues through to council. Please support me on November 13.

### Jane Fogal

**Occupation:** Full-time town councillor  
**Previous political experience:**  
Ward 3 councillor (three years)

The first major issue is recreation facilities. Many people complain that Halton Hills has failed to reach minimum standards and this situation must be addressed. Living in Halton Hills should not be a disadvantage for our children. Development is a fact of life; what we make of it is up to us. Vision for our community must be reflected in our renewed Official Plan and articulated to developers. Experience shows that political leadership can and should direct development. Housing for young seniors is greatly needed. The municipality can do more to encourage this type of development so that long-time residents aren't forced to move elsewhere. Development of the 401 Industrial Corridor is vital as it will ease the tax burden on residents.

### Moya Johnson

**Occupation:** Clinical educator, William Osler Health Centre  
**Previous political experience:**  
Ward 3 councillor (six years)

I support public participation in the planning process. As we revise our Official Plan, I will ensure that every effort is made to include the public at every stage in the development of the document. We must make sure that recreation opportunities are available to meet the demands of our growth. I will work with council and budget committee to ensure our new facilities are built in a timely and fiscally responsible manner. We are currently undertaking a Fire Master Plan to make recommendations about services we will need to keep pace with our expanding population. As chair, I support a timely response of council to ensure that our fire department has the staff and equipment necessary to provide an adequate response to fire emergencies.

## Ward 4

### Ron Chatten

**Occupation:** Retired principal  
**Previous political experience:**  
Ward 4 local councillor (9 years)

Council must show strong leadership and direction as we vision for the future and set priorities for the coming term. Budget deliberations will be crucial as we proceed with our long-awaited recreational facilities. Growth pressures will continue. Our Official Plan review must protect these unique features that make Halton Hills so desirable for family living. Our new economic development officer will continue to work closely with local businesses and be instrumental in helping attract new industrial growth. I want to see improved gateways to our town and additional support for park maintenance. I look forward to the challenges ahead.
