Want to repair your credit, instead of your car?
if you need a car but also need to repair your credit this may be your best opportunity

The Ugly credit dilemma.
Have you had a few bad breaks. If your credit has been damaged, often the only way to get wheels is to settle for something less than reliable. More bills pile up. On top of that is an outrageous interest rate. It's a vicious ugly cycle.

We'd like to give you a new lease on life.

- ✓ Fixing your needs and your credit can be easier than you think.
- ✓ Get a low mileage 1 year old vehicle still under manufacturers warranty, fully dealer serviced, not someone else's headache
- ✓ Make your payments to a well respected legitimate financial institution whose credit rating of you is respected
- ✓ Pay a rate as low as 9.9%, don't be gouged and taken advantage of.
- ✓ Drive a vehicle that is not only safe but affordable to maintain and upkeep
- ✓ Choose what you need not what they need to sell, compact sedan, midsize sedan or minivan
- ✓ Low or no down payment necessary

905-873-1626

Smile and relax, it's all just a phone call away. In as little as a few days, you could be driving away, happy.

This program is intended to provide a better quality transportation option to individuals whose established credit history may have blemishes. It is not in any way a guarantee of acceptance for everyone. All credit applications will be considered equally and every effort will be made to approve the application. Rates, terms, and availability may vary. Call for details, no obligation necessary.
